RCW 67.70.060 Powers of director. (1) The director or the director's authorized representative may:

Effective date—1989 c 175: See note following RCW 34.05.010.

RCW 67.70.070 Licenses for lottery sales agents—Factors

—"Person" defined. No license as an agent to sell lottery tickets or shares may be issued to any person to engage in business exclusively as a lottery sales agent. Before issuing a license, the director shall consider such factors as: (1) The financial responsibility and security of the person and his or her business or activity, (2) the accessibility of his or her place of business or activity to the public, (3) the sufficiency of existing licenses to serve the public convenience, and (4) the volume of expected sales.

For purposes of this section, the term "person" means an individual, association, corporation, club, trust, estate, society, company, joint stock company, receiver, trustee, assignee, referee, or any other person acting in a fiduciary or representative capacity, whether appointed by a court or otherwise, and any combination of individuals. "Person" does not mean any department, commission, agency, or instrumentality of the state, or any county or municipality or any agency or instrumentality thereof, except for retail outlets of the *state liquor control board. [2012 c 117 s 308; 1982 2nd ex.s. c 7 s 7.]

***Reviser's note:** The "state liquor control board" was renamed the "state liquor and cannabis board" by 2015 c 70 s 3.

RCW 67.70.080 License as authority to act. Any person licensed as provided in this chapter is hereby authorized and empowered to act as a lottery sales agent. [1982 2nd ex.s. c 7 s 8.]

RCW 67.70.090 Denial, suspension, and revocation of licenses. The director may deny an application for, or suspend or revoke, after notice and hearing, any license issued pursuant to this chapter. Such

license may, however, be temporarily suspended by the director without prior notice, pending any prosecution, investigation, or hearing. A license may be suspended or revoked or an application may be denied by the director for one or more of the following reasons:

(1) Failure to account for lottery tickets received or the proceeds of the sale of lottery tickets or to file a bond if required by the director or to comply with the instructions of the director concerning the licensed activity;

(2) For any of the reasons or grounds stated in RCW 9.46.075 or violation of this chapter or the rules of the commission;

(3) Failure to file any return or report or to keep records or to pay any tax required by this chapter;

(4) Fraud, deceit, misrepresentation, or conduct prejudicial to public confidence in the state lottery;

(5) That the number of lottery tickets sold by the lottery sales agent is insufficient to meet administrative costs, or that public convenience is adequately served by other licensees;

(6) A material change, since issuance of the license with respect to any matters required to be considered by the director under RCW 67.70.070.

For the purpose of reviewing any application for a license and for considering the denial, suspension, or revocation of any license the director may consider any prior criminal conduct of the applicant or licensee and the provisions of RCW 9.95.240 and of chapter 9.96A RCW shall not apply to such cases. [1982 2nd ex.s. c 7 s 9.]

RCW 67.70.100 Assignment of rights prohibited—Exceptions—Notices—Assignment of payment of remainder of an annuity—Intervention—Limitation on payment by director—Rules—Recovery of costs of commission—Federal ruling required—Discharge of liability. (1)

Except under subsection (2) of this section, no right of any person to a prize drawn is assignable, except that payment of any prize drawn may be paid to the estate of a deceased prize winner, and except that any person pursuant to an appropriate judicial order may be paid the prize to which the winner is entitled.

(2)(a) The payment of all or part of the remainder of an annuity may be assigned to another person, pursuant to a voluntary assignment of the right to receive future annual prize payments, if the assignment is made pursuant to an appropriate judicial order of the Thurston county superior court or the superior court of the county in which the prize winner resides, if the winner is a resident of Washington state. If the prize winner is not a resident of Washington state, the winner must seek an appropriate order from the Thurston county superior court.

(b) If there is a voluntary assignment under (a) of this subsection, a copy of the petition for an order under (a) of this subsection and all notices of any hearing in the matter shall be served on the attorney general no later than ten days before any hearing or entry of any order.

(c) The court receiving the petition may issue an order approving the assignment and directing the director to pay to the assignee the remainder or portion of an annuity so assigned upon finding that all of the following conditions have been met:

(i) The assignment has been memorialized in writing and executed by the assignor and is subject to Washington law;

(ii) The assignor provides a sworn declaration to the court attesting to the facts that the assignor has had the opportunity to be represented by independent legal counsel in connection with the assignment, has received independent financial and tax advice concerning the effects of the assignment, and is of sound mind and not acting under duress, and the court makes findings determining so;

(iii) The assignee has provided a one-page written disclosure statement that sets forth in boldface type, fourteen point or larger, the payments being assigned by amount and payment dates, the purchase price, or loan amount being paid; the interest rate or rate of discount to present value, assuming monthly compounding and funding on the contract date; and the amount, if any, of any origination or closing fees that will be charged to the lottery winner. The disclosure statement must also advise the winner that the winner should consult with and rely upon the advice of his or her own independent legal or financial advisors regarding the potential federal and state tax consequences of the transaction; and

(iv) The proposed assignment does not and will not include or cover payments or portions of payments subject to offsets pursuant to RCW 67.70.255 unless appropriate provision is made in the order to satisfy the obligations giving rise to the offset.

(d) The commission may intervene as of right in any proceeding under this section but shall not be deemed an indispensable or necessary party.

(3) The director will not pay the assignee an amount in excess of the annual payment entitled to the assignor.

(4) The commission may adopt rules pertaining to the assignment of prizes under this section, including recovery of actual costs incurred by the commission. The recovery of actual costs shall be deducted from the initial annuity payment made to the assignee.

(5) No voluntary assignment under this section is effective unless and until the national office of the federal internal revenue service provides a ruling that declares that the voluntary assignment of prizes will not affect the federal income tax treatment of prize winners who do not assign their prizes. If at any time the federal internal revenue service or a court of competent jurisdiction provides a determination letter, revenue ruling, other public ruling of the internal revenue service or published decision to any state lottery or state lottery prize winner declaring that the voluntary assignment of prizes will effect the federal income tax treatment of prize winners who do not assign their prizes, the director shall immediately file a copy of that letter, ruling, or published decision with the secretary of state. No further voluntary assignments may be allowed after the date the ruling, letter, or published decision is filed.

(6) The occurrence of any event described in subsection (5) of this section does not render invalid or ineffective assignments validly made and approved pursuant to an appropriate judicial order before the occurrence of any such event.

(7) The requirement for a disclosure statement in subsection (2)(c)(iii) of this section does not apply to any assignment agreement executed before April 21, 1997.

(8) The commission and the director shall be discharged of all further liability upon payment of a prize pursuant to this section. [1997 c 111 s 1; 1996 c 228 s 2; 1982 2nd ex.s. c 7 s 10.]

Effective date—1997 c 111: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately [April 21, 1997]." [1997 c 111 s 2.]

Intent—1996 c 228: "The Washington state lottery act under chapter 7, Laws of 1982 2nd ex. sess., provides, among other things, that the right of any person to a prize shall not be assignable, except to the estate of a deceased prize winner, or to a person designated pursuant to an appropriate judicial order. Current law and practices provide that those who win lotto jackpots are paid in annual installments over a period of twenty years. The legislature recognizes that some prize winners, particularly elderly persons, those seeking to acquire a small business, and others with unique needs, may not want to wait to be paid over the course of up to twenty years. It is the intent of the legislature to provide a restrictive means to accommodate those prize winners who wish to enjoy more of their winnings currently, without impacting the current fiscal structure of the Washington state lottery commission." [1996 c 228 s 1.]

RCW 67.70.110 Maximum price of ticket or share limited—Sale by other than licensed agent prohibited. A person shall not sell a ticket or share at a price greater than that fixed by rule of the commission. No person other than a licensed lottery sales agent shall sell lottery tickets, except that nothing in this section prevents any person from giving lottery tickets or shares to another as a gift. [1982 2nd ex.s. c 7 s 11.]

RCW 67.70.120 Sale to minor prohibited—Exception—Penalties.

Short title—2001 c 3 (Initiative Measure No. 728): "This act may be known and cited as the K-12 2000 student achievement act." [2001 c 3 s 1 (Initiative Measure No. 728, approved November 7, 2000).]

Purpose—Intent—2001 c 3 (Initiative Measure No. 728): "The citizens of Washington state expect and deserve great public schools for our generation of school children and for those who will follow. A quality public education system is crucial for our state's future economic success and prosperity, and for our children and their children to lead successful lives.

The purpose of this act is to improve public education and to achieve higher academic standards for all students through smaller class sizes and other improvements. A portion of the state's surplus general fund revenues is dedicated to this purpose.

In 1993, Washington state made a major commitment to improved public education by passing the Washington education reform act. This act established new, higher standards of academic achievement for all students. It also established new levels of accountability for students, teachers, schools, and school districts. However, the K-12 finance system has not been changed to respond to the new standards and individual student needs.

To make higher student achievement a reality, schools need the additional resources and flexibility to provide all students with more individualized quality instruction, more time, and the extra support that they may require. We need to ensure that curriculum, instruction methods, and assessments of student performance are aligned with the new standards and student needs. The current level of state funding does not provide adequate resources to support higher academic achievement for all students. In fact, inflation-adjusted per-student state funding has declined since the legislature adopted the 1993 education reform act.

The erosion of state funding for K-12 education is directly at odds with the state's "paramount duty to make ample provision for the education of all children...." Now is the time to invest some of our surplus state revenues in K-12 education and redirect state lottery funds to education, as was originally intended, so that we can fulfill the state's paramount duty.

Conditions and needs vary across Washington's two hundred ninety-six school districts. School boards accountable to their local communities should therefore have the flexibility to decide which of the following strategies will be most effective in increasing student performance and in helping students meet the state's new, higher academic standards:

- (1) Major reductions in K-4 class size;
- (2) Selected class size reductions in grades 5-12, such as small high school writing classes;
- (3) Extended learning opportunities for students who need or want additional time in school;
- (4) Investments in educators and their professional development;
- (5) Early assistance for children who need prekindergarten support in order to be successful in school; and
- (6) Providing improvements or additions to facilities to support class size reductions and extended learning opportunities.

REDUCING CLASS SIZE

Smaller classes in the early grades can significantly increase the amount of learning that takes place in the classroom. Washington state now ranks forty-eighth in the nation in its student-teacher ratio. This is unacceptable.

Significant class size reductions will provide our children with more individualized instruction and the attention they need and deserve and will reduce behavioral problems in classrooms. The state's long-term goal should be to reduce class size in grades K-4 to no more than eighteen students per teacher in a class.

The people recognize that class size reduction should be phased-in over several years. It should be accompanied by the necessary funds for school construction and modernization and for high quality, well-trained teachers.

EXTENDED LEARNING OPPORTUNITIES

Student achievement will also be increased if we expand learning opportunities beyond our traditional-length school day and year. In many school districts, educators and parents want a longer school day, a longer school year, and/or all-day kindergarten to help students improve their academic performance or explore new learning opportunities. In addition, special programs such as before-and-after-school tutoring will help struggling students catch and keep up with their classmates. Extended learning opportunities will be increasingly important as attainment of a certificate of mastery becomes a high school graduation requirement.

TEACHER QUALITY

Key to every student's academic success is a quality teacher in every classroom. Washington state's new standards for student achievement make teacher quality more important than ever. We are asking our teachers to teach more demanding curriculum in new ways, and we are holding our educators and schools to new, higher levels of accountability for student performance. Resources are needed to give teachers the content knowledge and skills to teach to higher standards and to give school leaders the skills to improve instruction and manage organizational change.

The ability of school districts throughout the state to attract and retain the highest quality teaching corps by offering competitive salaries and effective working conditions is an essential element of basic education. The state legislature is responsible for establishing teacher salaries. It is imperative that the legislature fund salary levels that ensure school districts' ability to recruit and retain the highest quality teachers.

EARLY ASSISTANCE

The importance of a child's intellectual development in the first five years has been established by widespread scientific research. This is especially true for children with disabilities and special needs. Providing assistance appropriate to children's developmental needs will enhance the academic achievement of these children in grades K-12. Early assistance will also lessen the need for more expensive remedial efforts in later years.

NO SUPPLANTING OF EXISTING EDUCATION FUNDS

It is the intent of the people that existing state funding for education, including all sources of such funding, shall not be

reduced, supplanted, or otherwise adversely impacted by appropriations or expenditures from the *student achievement fund created in RCW 43.135.045 or the education construction fund.

INVESTING SURPLUS IN SCHOOLS UNTIL GOAL MET

It is the intent of the people to invest a portion of state surplus revenues in their schools. This investment should continue until the state's contribution to funding public education achieves a reasonable goal. The goal should reflect the state's paramount duty to make ample provision for the education of all children and our citizens' desire that all students receive a quality education. The people set a goal of per-student state funding for the maintenance and operation of K-12 education being equal to at least ninety percent of the national average per-student expenditure from all sources. When this goal is met, further deposits to the *student achievement fund shall be required only to the extent necessary to maintain the ninety-percent level." [2001 c 3 s 2 (Initiative Measure No. 728, approved November 7, 2000).]

RCW 67.70.340 Transfer of shared game lottery proceeds. (1) The legislature recognizes that creating a shared game lottery could result in less revenue being raised by the existing state lottery ticket sales. The legislature further recognizes that the fund most impacted by this potential event is the Washington opportunity pathways account. Therefore, it is the intent of the legislature to use some of the proceeds from the shared game lottery to make up the difference that the potential state lottery revenue loss would have on the Washington opportunity pathways account. The legislature further intends to use some of the proceeds from the shared game lottery to fund programs and services related to problem gambling and gambling disorder.

(2) The Washington opportunity pathways account is expected to receive \$102,000,000 annually from state lottery games other than the shared game lottery. For fiscal year 2011 and thereafter, if the amount of lottery revenues earmarked for the Washington opportunity pathways account is less than \$102,000,000, the commission, after making the transfer required under subsection (3) of this section, must transfer sufficient moneys from revenues derived from the shared game lottery into the Washington opportunity pathways account to bring the total revenue up to \$102,000,000.

(3) (a) The commission shall transfer, from revenue derived from the shared game lottery, to the problem gambling account created in RCW 41.05.751, an amount equal to the percentage specified in (b) of this subsection of net receipts. For purposes of this subsection, "net receipts" means the difference between (i) revenue received from the sale of lottery tickets or shares and revenue received from the sale of shared game lottery tickets or shares; and (ii) the sum of payments made to winners.

(b) In fiscal year 2024, the percentage to be transferred to the problem gambling account is 0.20 percent. In fiscal year 2025 and subsequent fiscal years, the percentage to be transferred to the problem gambling account is 0.26 percent.

(4) The commission shall transfer the remaining net revenues, if any, derived from the shared game lottery "Powerball" authorized in

RCW 67.70.044(1) after the transfers pursuant to this section into the state general fund for support for the program of basic education under RCW 28A.150.200.

(5) The remaining net revenues, if any, in the shared game lottery account after the transfers pursuant to this section shall be deposited into the Washington opportunity pathways account.
