RCW 82.38.010 Statement of purpose. The purpose of this chapter is to impose a tax upon fuels used for the propulsion of motor vehicles upon the highways of this state. [2013 c 225 s 101; 1979 c 40 s 1; 1971 ex.s. c 175 s 2.]

Effective date—2015 c 228; 2013 c 225: "Section 110, chapter 225, Laws of 2013 takes effect July 1, 2015. Sections 101 through 109, 111 through 304, and 306 through 647, chapter 225, Laws of 2013 take effect July 1, 2016." [2015 c 228 s 40; 2013 c 225 s 650.]

(a) Fuel is removed in this state from a terminal if the fuel is removed at the rack unless the removal is by a licensed supplier or distributor for direct delivery to a destination outside of the state, or the removal is by a fuel supplier for direct delivery to an international fuel tax agreement licensee under RCW 82.38.320;

(b) Fuel is removed in this state from a refinery if either of the following applies:

(i) The removal is by bulk transfer and the refiner or the owner of the fuel immediately before the removal is not a licensed supplier; or

(ii) The removal is at the refinery rack unless the removal is to a licensed supplier or distributor for direct delivery to a destination outside of the state, or the removal is to a licensed supplier for direct delivery to an international fuel tax agreement licensee under RCW 82.38.320;

Effective date—2025 c 417 ss 101-103, 406, 701-709, 808-814, 1102, 1103, and 1305: "Sections 101 through 103, 406, 701 through 709, 808 through 814, 1102, 1103, and 1305 of this act are necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and take effect July 1, 2025." [2025 c 417 s 1402.]

Findings—Intent—2025 c 417: "The legislature finds that the purpose of the transportation system is to support the mobility needs of Washington residents, as well as to sustain and foster the economic activity and growth of the state. The legislature recognizes that the transportation system has pressing near, mid, and long-term needs that necessitate reliance on reliable funding resources, as well as the efficient use of those resources. The legislature further recognizes that the production, maintenance, and utilization of transportation resources across the state is inherently a complex, multifaceted issue. The legislature therefore intends to address these resources needs in a comprehensive manner. As such, the legislature's purpose in enacting this legislation is to address the complex production, maintenance, and utilization of transportation resources in Washington to achieve both short-term investment needs and provide a long-range vision for transportation system development." Contingent expiration date—2015 3rd sp.s. c 44 ss 101, 102, 104, and 109: "Sections 101, 102, 104, and 109 of this act expire July 1, 2016, if sections 103, 105, and 110 of this act take effect July 1, 2016." [2015 3rd sp.s. c 44 s 428.]

Effective date—2015 c 228; 2014 c 216: "Sections 101, 202, and 207 through 501, chapter 216, Laws of 2014 take effect July 1, 2015. Sections 201 and 203 through 206, chapter 216, Laws of 2014 take effect July 1, 2016." [2015 c 228 s 41; 2014 c 216 s 601.]

Findings—Tax preference performance statement—2014 c 216: "(1) The legislature finds that current law taxes natural gas as a traditional home heating or electric generation fuel while not taking into account the benefits of natural gas use as a transportation fuel. The legislature further finds that the construction and operation of a natural gas liquefaction plant and compressed natural gas refueling stations as well as the ongoing use of compressed and liquefied natural gas will lead to positive job creation, economic development, environmental benefits, and lower fuel costs. The legislature further finds that it is sound tax policy to provide uniform tax treatment of natural gas used as a transportation fuel, regardless of whether the taxpayer providing the natural gas is a gas distribution business or not, so as to prevent any particular entity from receiving a competitive advantage solely through a structural inefficiency in the tax code.

(2)(a) This subsection is the tax performance statement for this act. The performance statement is only intended to be used for subsequent evaluation of the tax changes made in this act. It is not intended to create a private right of action by any party or be used to determine eligibility for preferential tax treatment.

(b) The legislature categorizes the tax changes in this act as changes intended to accomplish the general purposes indicated in RCW 82.32.808(2) (c) and (d).

(c) It is the legislature's specific public policy objectives to promote job creation and positive economic development; lower carbon dioxide, sulfur dioxide, nitrogen dioxide, and particulate emissions; and secure optimal liquefied natural gas pricing for the state of Washington and other public entities.

(d) To measure the effectiveness of the exemption provided in this act in achieving the specific public policy objective described in (c) of this subsection, the joint legislative audit and review committee must evaluate the following:

(i) The number of employment positions and wages at a natural gas liquefaction facility located in Washington and operated by a gas distribution business where some or all of the liquefied natural gas is sold for use as a transportation fuel. If the average number of employment positions at the liquefaction facility once it is operationally complete equals or exceeds eighteen and average annual wages for employment positions at the facility exceed thirty-five thousand dollars, it is presumed that the public policy objective of job creation has been achieved.

(ii) The estimated total cost of construction of a liquefaction plant by a gas distribution company, including costs for machinery and equipment. If the total cost equals or exceeds two hundred fifty million dollars, it is presumed that the public policy objective of positive economic development has been achieved.

(iii) The estimated fuel savings by the Washington state ferry system and other public entities through the use of liquefied natural gas purchased from a gas distribution business.

(iv) The estimated reduction in carbon dioxide, sulfur dioxide, nitrogen dioxide, and particulate emissions, resulting from the use of liquefied natural gas and compressed natural gas as a transportation fuel where the natural gas is sold by a gas distribution business. The emissions of liquefied and compressed natural gas must be specifically compared with an equivalent amount of diesel fuel. If the estimated annual reduction in emissions exceeds the following benchmarks, it is presumed that the public policy objective of reducing emissions has been achieved:

(A) Three hundred million pounds of carbon dioxide;

(B) Two hundred thousand pounds of particulates;

(C) Four hundred thousand pounds of sulfur dioxide; and

(D) Four hundred fifty thousand pounds of nitrogen dioxide.

(e) (i) The following data sources are intended to provide the informational basis for the evaluation under (d) of this subsection:

(A) Employment data provided by the state employment security department;

(B) Ferry fuel purchasing data provided by the state department of transportation;

(C) Diesel and other energy pricing data found on the United States energy information administration's website; and

(D) Information provided by a gas distribution business on the annual report required under RCW 82.32.534.

(ii) In addition to the data source described under (e) (i) of this subsection, the joint legislative audit and review committee may use any other data it deems necessary in performing the evaluation under (d) of this subsection.

(3) A gas distribution business claiming the exemption under RCW 82.08.02565 or 82.12.02565 must file the annual report under RCW 82.32.534 or any successor document. In addition to the information contained in the report, the report must also include the amount of liquefied natural gas and compressed natural gas sold by the gas distribution business as a transportation fuel. A gas distribution business is not required to file the annual survey under *RCW 82.32.585, as would otherwise be required under RCW 82.32.808(5).

(4) The joint legislative audit and review committee must perform the review required in this section in a manner consistent with its tax preference review process under chapter 43.136 RCW. The committee must perform the review in calendar year 2025." [2014 c 216 s 101.]

Findings—2003 c 361: "The legislature finds that the state's transportation system is in critical need of repair, restoration, and enhancement. The state's economy, the ability to move goods to market, and the overall mobility and safety of the citizens of the state rely on the state's transportation system. The revenues generated by this act are dedicated to funds, accounts, and activities that are necessary to improve the delivery of state transportation projects and services." [2003 c 361 s 101.]

[1977 ex.s. c 317 s 24.]

RCW 82.38.031 Tax imposed—Intent. It is the intent and purpose of this chapter that the tax shall be imposed at the time and place of the first taxable event and upon the first taxable person within this state. Any person whose activities would otherwise require payment of the tax imposed by RCW 82.38.030 but who is exempt from the tax nevertheless has a precollection obligation for the tax that must be imposed on the first taxable event within this state. Failure to pay the tax with respect to a taxable event shall not prevent tax liability from arising by reason of a subsequent taxable event. [2007 c 515 s 33.]

Effective date—2007 c 515: See note following RCW 82.38.030.

RCW 82.38.032 Payment of tax by international fuel tax agreement licensees or persons operating under other reciprocity agreements. International fuel tax agreement licensees, or persons operating motor vehicles under other reciprocity agreements entered into with the state of Washington, are liable for and must pay the tax under RCW 82.38.030 to the department on fuel used to operate motor vehicles on the highways of this state. This provision does not apply if the tax under RCW 82.38.030 has previously been imposed and paid by the international fuel tax agreement licensee or if the use of such fuel is exempt from the tax under this chapter. [2013 c 225 s 104; 2007 c 515 s 22; 1998 c 176 s 52.]

Effective date—2013 c 225: See note following RCW 82.38.010.

Effective date—2007 c 515: See note following RCW 82.38.030.

RCW 82.38.033 Payment of tax by a nonlicensee. Every person, other than a licensee, who acquires fuel upon which payment of tax is required must, if the tax has not been paid, comply with the provisions of this chapter, and pay tax at the rate provided in RCW 82.38.030. The person is subject to the same duties and penalties imposed upon licensees. [2013 c 225 s 208.]

Effective date—2013 c 225: See note following RCW 82.38.010.

RCW 82.38.035 Tax liability. (1) A licensed supplier is liable for and must pay tax on fuel as provided in *RCW 82.38.030(7) (a) and (i). On a two-party exchange, or buy-sell agreement between two licensed suppliers, the receiving exchange partner or buyer shall be liable for and pay the tax.

(2) A refiner is liable for and must pay tax on fuel removed from a refinery as provided in *RCW 82.38.030(7) (b).

(3) A licensed distributor is liable for and must pay tax on fuel as provided in *RCW 82.38.030(7) (c).

(4) A licensed blender is liable for and must pay tax on fuel as provided in *RCW 82.38.030(7) (f).

(5) A licensed dyed special fuel user is liable for and must pay tax on fuel as provided in *RCW 82.38.030(7) (g).

(6) A terminal operator is jointly and severally liable for and must pay tax on fuel if, at the time of removal:

(a) The position holder of the fuel is a person other than the terminal operator and is not a licensee;

(b) The terminal operator is not a licensee;

(c) The position holder has an expired internal revenue notification certificate;

(d) The terminal operator has reason to believe that information on the internal revenue notification certificate is false.

(7) A terminal operator is jointly and severally liable for and must pay tax on special fuel if the special fuel is removed and is not dyed or marked in accordance with internal revenue service requirements, and the terminal operator provides a person with a bill of lading, shipping paper, or similar document indicating the special fuel is dyed or marked in accordance with internal revenue service requirements.

(8) International fuel tax agreement licensees, or persons operating motor vehicles under other reciprocity agreements entered into with the state of Washington, are liable for and must pay tax on fuel used to operate motor vehicles on state highways.

(1) A lessor leasing motor vehicles without drivers to lessees for interstate operation, may be the fuel user when the lessor supplies or pays for the fuel consumed in the motor vehicles. Any lessee may exclude motor vehicles from reports and liabilities pursuant to this chapter, but only if the excluded motor vehicles have been leased from a lessor holding a valid international fuel tax agreement license.

(2) The lessor is responsible for fuel tax licensing and reporting for the operation of motor vehicles leased for less than thirty days. [2013 c 225 s 106; 2007 c 515 s 24; 1990 c 250 s 82; 1983 c 242 s 1; 1971 ex.s. c 175 s 6.]

RCW 82.38.055 Bonding requirements. (1) A license may not be issued or continued in force unless a bond is provided to secure payment of all taxes, interest, and penalties. This requirement may be waived for:

- (a) Licensed dyed special fuel users;
- (b) International fuel tax agreement licensees; or
- (c) Licensed fuel distributors who, upon determination by the department, have sufficient resources, assets, other financial instruments, or other means to adequately make payments on monthly fuel tax payments, penalties, and interest.

(2) The department may require a licensee to post a bond if the department determines a bond is required to protect the interests of the state.

(3) The total amount of the bond or bonds is three times the estimated monthly fuel tax liability. The total bonding amount may never be less than five thousand dollars nor more than one hundred thousand dollars.

(4) In lieu of a bond, a licensee may deposit with the state treasurer, a like amount of money of the United States, or bonds or other obligations of the United States, the state, or any county of the state, of a market value not less than the amount of the required bond.

(5) The department may require a licensee to increase the bond amount or to deposit additional securities as described in this section if the security of the bond or the market value of the securities becomes impaired or inadequate.

(6) Any surety on a bond furnished by a licensee must be released and discharged from any liability accruing on such bond after the

expiration of forty-five days from the date the surety provided written notification to the department. The provisions of this section do not relieve, release, or discharge the surety from any liability accrued or which will accrue before the expiration of the forty-five day period. The department must promptly notify the licensee who furnished the bond, and unless the licensee, on or before the expiration of the forty-five day period, files a new bond the department must cancel the license. RCW 82.38.060 Tax computation on mileage basis. If tax on fuel placed in the fuel supply tanks of motor vehicles for taxable use on Washington highways can be more accurately determined on a mileage basis the department is authorized to adopt such basis. In the absence of records showing the number of miles actually operated per gallon of fuel consumed, fuel consumption must be calculated by the department. [2023 c 470 s 1020. RCW 82.38.065 Dyed special fuel use—Authorization, license required—Imposition of tax. A person may operate or maintain a licensed or required to be licensed motor vehicle with dyed special fuel in the fuel supply tank only if the use is authorized by the internal revenue code and the person is either the holder of a dyed special fuel user license or the use is exempt from the special fuel tax. A person may maintain dyed special fuel for a taxable use in bulk storage if the person is the holder of a dyed special fuel user license issued under this chapter. RCW 82.38.066 Dyed special fuel—Requirements—Marking—Notice.

- (1) Special fuel satisfies the dyeing and marking requirements of this chapter if it meets the dyeing and marking requirements of the internal revenue service, including, but not limited to, requirements respecting type, dosage, and timing.
- (2) Notice is required with respect to dyed special fuel. A notice stating "DYED DIESEL FUEL, NONTAXABLE USE ONLY, PENALTY FOR TAXABLE USE" must be:
 - (a) Provided by the terminal operator to a person who receives dyed special fuel at a terminal rack;
 - (b) Provided by a seller of dyed special fuel to the buyer if the special fuel is located outside the bulk transfer-terminal system and is not sold from a retail pump posted in accordance with the requirements of this subsection; or

(c) Posted by a seller on a retail pump dispensing dyed special fuel and provided by the seller of dyed special fuel to the buyer at the retail pump. [2013 c 225 s 109; 1998 c 176 s 57.]

Effective date—2013 c 225: See note following RCW 82.38.010.

RCW 82.38.072 Dyed special fuel—Penalties. (1) Unless the use is exempt from the special fuel tax, or expressly authorized by the federal internal revenue code and this chapter, a person having dyed special fuel in the fuel supply tank of a motor vehicle that is licensed or required to be licensed is subject to a civil penalty of \$10 for each gallon of dyed special fuel placed into the supply tank of the motor vehicle, or \$1,000, whichever is greater. The penalties must be collected and administered under this chapter.

(2) A person who maintains dyed special fuel in bulk storage for an intended sale or use in violation of this chapter is subject to a civil penalty of \$10 for each gallon of dyed special fuel, or \$1,000, whichever is greater, currently and previously maintained in bulk storage by the person. The department may make an assessment based upon the calculated capacity of the bulk storage, which is presumptive unless evidence is provided supporting a lower quantity of dyed special fuel actually maintained in violation of this chapter. The penalties must be collected and administered under this chapter.

(3) For the purposes of enforcement of this section, the director, the director's agents, the Washington state patrol, or other commercial vehicle safety alliance-certified officers may inspect, collect, and secure samples of special fuel used in the propulsion of a vehicle operated upon the highways of this state, or in any bulk storage device transported upon the highways of this state, to detect the presence of dye or other chemical compounds.

(4) RCW 43.05.110 does not apply to the civil penalties imposed under this section.

(5) If one or more violations have been assessed under this section within the previous five years from the violation date, the civil penalties under subsections (1) and (2) of this section must be multiplied by the number of previously assessed violations plus one.

(6) Assessments under this section are subject to the provisions of RCW 82.38.170. [2024 c 1 s 5; 2013 c 225 s 204.]

RCW 82.38.075 Natural gas, compressed natural gas, propane—Annual license fee in lieu of special fuel tax for use in motor vehicles—Schedule—Decal or other identifying device. (1) To encourage the use of nonpolluting fuels, an annual license fee in lieu of the tax imposed by RCW 82.38.030 is imposed upon the use of liquefied natural gas, compressed natural gas, or propane used in any motor vehicle. The annual license fee must be based upon the following schedule and formula:

VEHICLE TONNAGE (GVW)	FEE
0 - 6,000	\$ 45

VEHICLE TONNAGE (GVW)	FEE
6,001 - 10,000	\$ 45
10,001 - 18,000	\$ 80
18,001 - 28,000	\$110
28,001 - 36,000	\$150
36,001 and above	\$250

(2) To determine the annual license fee for a registration year, the appropriate dollar amount in the schedule is multiplied by the cumulative fuel tax rate per gallon of special fuel effective on July 1st of the preceding calendar year and the product is divided by 12 cents. The annual license fee must be rounded to the nearest five cents.

(3) The department, in addition to the resulting fee, must charge an additional fee of \$5 as a handling charge for each license issued.

(4) The vehicle tonnage fee must be prorated so the annual license will correspond with the staggered vehicle licensing system.

(5) A decal or other identifying device issued upon payment of the annual fee must be displayed as prescribed by the department as authority to purchase this fuel.

(6) Persons selling or dispensing natural gas or propane may not sell or dispense this fuel for their own use or the use of others into tanks of vehicles powered by this fuel which do not display a valid decal or other identifying device.

(7) Commercial motor vehicles registered in a foreign jurisdiction under the provisions of the international registration plan are subject to the annual fee.

(8) Motor vehicles registered in a foreign jurisdiction, except those registered under the international registration plan under chapter 46.87 RCW, are exempt from this section.

(9) Vehicles registered in jurisdictions outside the state of Washington are exempt from this section.

(10) Any person selling or dispensing liquefied natural gas, compressed natural gas, or propane into the tank of a motor vehicle powered by this fuel, except as prescribed in this chapter, is subject to the penalty provisions of this chapter. (3) Fuel users operating motor vehicles in interstate commerce having two axles and a gross vehicle weight or registered gross vehicle weight not exceeding twenty-six thousand pounds are not required to be licensed. Fuel users operating motor vehicles in interstate commerce having two axles and a gross vehicle weight or registered gross vehicle weight exceeding twenty-six thousand pounds, or having three or more axles regardless of weight, or a combination of vehicles, when the combination exceeds twenty-six thousand pounds gross vehicle weight, must comply with the licensing and reporting requirements of this chapter. The fee is in lieu of the special fuel tax otherwise assessable against the permit holder for importing and using special fuel in a motor vehicle on the public highways of this state. A report of mileage may not be required with respect to the motor vehicle. Special fuel trip permits may not be issued if the applicant has outstanding fuel taxes, penalties, or interest owing to the state or has had a special fuel license revoked for cause and the cause has not been removed.

(b) Operating records must show both on-highway and off-highway usage of special fuel on a daily basis for each vehicle.

(c) In the absence of operating records that show both on-highway and off-highway usage of special fuel on a daily basis for each vehicle, fuel consumption must be computed under RCW 82.38.060.

(3) The department may require a person other than a licensee engaged in the business of selling, purchasing, distributing, storing, transporting, or delivering fuel to submit periodic reports to the department regarding the disposition of the fuel. The reports must be on forms prescribed by the department and must contain such information as the department may require. Failure to report as the department requires subjects a person to the civil and criminal penalties under RCW 82.38.170 and 82.38.270.

(4) Every person operating any conveyance transporting fuel in bulk must possess during the entire time an invoice, bill of sale, or other statement showing the name, address, and license number of the seller or consigner, the destination, name, and address of the purchaser or consignee, license number, if applicable, and the number of gallons. The person transporting fuel must at the request of any law enforcement officer or authorized representative of the department, produce for inspection required records and must permit inspection of the contents of the vehicle. (1) For the purpose of determining the amount of liability for the tax imposed under this chapter, each licensee, other than an international fuel tax agreement licensee or a dyed special fuel user, must file monthly tax reports with the department.

(2) Dyed special fuel users whose estimated yearly tax liability is two hundred fifty dollars or less, must file a report yearly, and dyed special fuel users whose estimated yearly tax liability is more than two hundred fifty dollars, must file reports quarterly. International fuel tax agreement licensees must file reports quarterly. Heating oil dealers subject to the pollution liability insurance agency fee must file reports annually.

(3) A licensee, other than international fuel tax agreement licensee, must file a tax report on or before the twenty-fifth day of the calendar month following the reporting period to which it relates. A report must be filed even though no tax is due for the reporting period. Each report must contain a declaration that the statements contained therein are true and are made under penalties of perjury. The report must show information as the department may reasonably require for the proper administration and enforcement of this chapter.

(4) If the filing date falls on a Saturday, Sunday, or legal holiday the next secular or business day is the filing date.

(5) The department in order to insure payment of the tax or to facilitate administration of this chapter, may require the filing of reports and tax remittances at intervals other than one month.

(6) During a state of emergency declared under RCW 43.06.010(12), the department, on its own motion or at the request of any taxpayer affected by the emergency, may extend the time for filing any report or the due date for tax remittances as the department deems proper. RCW 82.38.160 Computation and payment of tax—Remittance—Electronic funds transfer. (1) The tax must be computed by multiplying the tax rate per gallon by the number of gallons of fuel subject to the fuel tax.

(2) A fuel distributor must remit tax on fuel purchased from a supplier, and due to the state for that reporting period, to the

special fuel supplier. This provision does not apply to fuel imported by a distributor under RCW 82.38.035(3).

(3) At the election of the distributor, payment of the fuel tax owed on fuel purchased from a supplier must be remitted to the supplier on terms agreed upon between the distributor and the supplier or no later than seven business days before the twenty-sixth day of the following month. This election is subject to a condition that the distributor's remittances of all amounts of fuel tax due to the supplier must be paid by electronic funds transfer. The distributor's election may be terminated by the supplier if the distributor does not make timely payments to the supplier as required by this section.

(4) Except as provided in subsection (5) of this section, the tax return must be accompanied by a remittance payable to the state treasurer covering the tax amount due for the reporting period.

(5) If the tax is paid by electronic funds transfer, the tax must be paid on or before the twenty-sixth calendar day of the month immediately following the reporting period. If the payment due date falls on a Saturday, Sunday, or legal holiday the next business day is the payment date. If the tax is paid by electronic funds transfer and the reporting period ends on a day other than the last day of a calendar month, the tax must be paid on or before the last state business day of the thirty-day period following the end of the reporting period.

(6) The tax must be paid by electronic funds transfer whenever the amount due is fifty thousand dollars or more. [2013 c 225 s 117; 2005 c 260 s 2; 1998 c 176 s 68; 1987 c 174 s 5; 1979 c 40 s 12; 1971 ex.s. c 175 s 17.]

RCW 82.38.170 Civil and statutory penalties and interest—Deficiency assessments. (1) If any person fails to pay any taxes due the state of Washington within the time prescribed by RCW 82.38.150 and 82.38.160, the person must pay a penalty of 10 percent of the tax due.

(2) If the tax reported by any licensee is deficient a penalty of ten percent of the deficiency must be assessed.

(3) If any licensee, whether or not licensed as such, fails, neglects, or refuses to file a required fuel tax report, the department must determine the tax liability and add the penalty provided in subsection (2) of this section to the liability. An assessment made by the department pursuant to this subsection or to subsection (2) of this section is presumed to be correct, and the burden is on the person who challenges the assessment to establish by

a fair preponderance of the evidence that it is erroneous or excessive.

(4) If any person, other than a licensee, fails, neglects, or refuses to file a required fuel tax report, or files a false or fraudulent report, the department must calculate and assess a penalty. The penalty under this subsection is \$100 plus an additional five cents per gallon not properly reported or falsely reported. An assessment made by the department pursuant to this subsection is presumed to be correct, and the burden is on the person who challenges the assessment to establish by a fair preponderance of the evidence that it is erroneous or excessive.

(5) If any person establishes by a fair preponderance of evidence that failure to file a report or pay the proper amount of tax within the time prescribed was due to reasonable cause and was not intentional or willful, the department may waive the penalty prescribed in subsections (1), (2), and (4) of this section.

(6) If any licensee files a false or fraudulent report with intent to evade the tax imposed by this chapter, there is added to the amount of deficiency a penalty of 25 percent of the deficiency, in addition to all other penalties prescribed by law.

(7) If any person acts as a licensee without first securing the required license, all fuel tax liability incurred by that person becomes immediately due and payable. The department must determine the amount of the tax liability and must assess the person a penalty of 100 percent of the tax in addition to the tax owed.

(8) Any fuel tax, penalties, and interest payable under this chapter shall bear interest at the rate of one percent per month, or fraction thereof, from the first day of the calendar month after the amount or any portion thereof should have been paid until the date of payment. The department may waive interest when it determines the cost of processing the collection exceeds the amount of interest due.

(9) Except in the case of filing a false or fraudulent report, if the department deems mitigation of penalties and interest to be reasonable and in the best interests of carrying out the purpose of this chapter, it may mitigate the assessments.

(10) Except in the case of a fraudulent report or failure to file a report, deficiencies, penalties, and interest must be assessed within five years from the 25th day of the next succeeding month following the reporting period for which the amount is determined or within five years after the return is filed, whichever period expires later.

(11)(a) Any person against whom an assessment is made under the provisions of subsections (1), (2), and (4) of this section may petition for a reassessment within 30 days after service upon the person of the assessment. If such petition is not filed within such 30 day period, the amount of the assessment becomes final.

(b) If a petition for reassessment is filed within the 30 day period, the department must reconsider the assessment and, if the person has requested in the petition, must grant a review by the department and give 10 days' notice of the time and place. The department may continue the review as needed. The decision of the department upon a petition for reassessment becomes final 30 days after service upon the person.

(c) Every assessment made by the department becomes due and payable at the time it becomes final and if not timely paid to the department, a penalty of 10 percent of the amount of the tax is added to the assessment.

(12) Any notice of assessment required by this section must be served by depositing such notice in the United States mail, postage prepaid addressed to the person at the address shown in the records of the department.

(13) Any licensee who has had a fuel license revoked must pay a \$100 penalty, submit an application for reinstatement on forms prescribed by the department, and must resolve all outstanding violations, noncompliance items, and debts owed under this chapter, and chapters 46.87 and 82.42 RCW to the satisfaction of the department, prior to the issuance of a new license.

(14) Any person required to be licensed under RCW 82.38.090(1)(f) found operating without such license is subject to an assessment of \$500 in addition to all other penalties prescribed by law.

(15) Any person who, upon audit or investigation by the department, is found to have not paid fuel taxes as required by this chapter is subject to cancellation of all vehicle registrations for vehicles utilizing special fuel as a means of propulsion. Any unexpired Washington tonnage on the vehicles in question may be transferred to a purchaser of the vehicles upon application to the department who will hold such tonnage in its custody until a sale of the vehicle is made or the tonnage has expired.

(16) RCW 43.05.110 does not apply to the civil penalties imposed under this section. RCW 82.38.180 Refunds and credits. (1) Any person who has purchased fuel on which tax has been paid may file a claim with the department for a refund of the tax for:

(a) Fuel used for purposes other than for the propulsion of motor vehicles upon the public highways in this state. However, a refund may not be made for motor vehicle fuel consumed by a motor vehicle required to be registered under chapter 46.16A RCW.

(b) Fuel exported for use outside of this state. Fuel carried from this state in the fuel tank of a motor vehicle is deemed to be exported from this state. Fuel distributed to a federally recognized Indian tribal reservation located within the state of Washington is not considered exported outside this state.

(c) Tax, penalty, or interest erroneously or illegally collected or paid.

(d) Fuel which is lost or destroyed, while the licensee is the owner thereof, through fire, lightning, flood, windstorm, or explosion.

(e) Fuel of five hundred gallons or more which is lost or destroyed while the licensee is the owner thereof, through leakage or other casualty except evaporation, shrinkage, or unknown causes.

(f) Fuel used in power pumping units or other power take-off equipment of any motor vehicle which is accurately measured by metering devices that have been specifically approved by the department or by a formula determined by the department.

(2) Any person who has purchased special fuel on which tax has been paid may file a claim with the department for a refund of tax for:

(a) Special fuel used for the operation of a motor vehicle as a part of or incidental to logging operations upon a highway under federal jurisdiction within the boundaries of a federal area if the federal government requires a fee for the privilege of operating the motor vehicle upon the highway, the proceeds of which are reserved for constructing or maintaining roads in the federal area, or requires maintenance or construction work to be performed on the highway for the privilege of operating the motor vehicle on the highway;

(b) Special fuel used by special mobile equipment as defined in RCW 46.04.552;

(c) Special fuel used in a motor vehicle for movement between two pieces of private property wherein the movement is incidental to the primary use of the vehicle; and

(d) Special fuel inadvertently mixed with dyed special fuel.

(3) Any person who has purchased motor vehicle fuel on which tax has been paid may file a claim with the department for a refund of tax for:

(a) Motor vehicle fuel used by a private, nonprofit transportation provider regulated under chapter 81.66 RCW to provide transportation services for persons with special transportation needs; and

(b) Motor vehicle fuel used by an urban passenger transportation system. For purposes of this subsection "urban passenger transportation system" means every transportation system, publicly or privately owned, having as its principal source of revenue the income from transporting persons for compensation by means of motor vehicles or trackless trolleys, each having a seating capacity of over fifteen persons, over prescribed routes in such a manner that the routes of such motor vehicles or trackless trolleys, either alone or in conjunction with routes of other such motor vehicles or trackless trolleys subject to the routing by the same transportation system, do not extend for a distance exceeding fifteen road miles beyond the corporate limits of the city in which the original starting points of such motor vehicles or trackless trolleys are located. No refunds are authorized for fuel used on any trip where any portion of the trip is more than fifteen road miles beyond the corporate limits of the city in which the trip originated.

(4) Recovery for such loss or destruction under subsections (1)(d) or (e) or (2)(d) of this section must be susceptible to positive proof thereby enabling the department to conduct such investigation and require such information as it may deem necessary. In the event that the department is not satisfied that the fuel was lost, destroyed, or contaminated as claimed because information or proof as required hereunder is not sufficient to substantiate the accuracy of the claim, it may deem such as sufficient cause to deny all right relating to the refund or credit for the excise tax paid on fuel alleged to be lost or destroyed.

(5) No refund or claim for credit may be approved by the department unless the gallons of fuel claimed as nontaxable satisfy the conditions specifically set forth in this section and the nontaxable event or use occurred during the period covered by the refund claim. Refunds or claims for credit are not be [are not] allowed for anticipated nontaxable use or events. [2013 c 225 s 119; 2007 c 515 s 29; 1998 c 176 s 71; 1972 ex.s. c 138 s 4; 1971 ex.s. c 175 s 19.]

At least once each fiscal year, the director must request the state treasurer to refund from the motor vehicle fund, to the aeronautics account created under RCW 82.42.090, an amount equal to 0.028 percent of the gross motor vehicle fuel tax less an amount equal to aircraft fuel taxes transferred to that account as a result of nonhighway refunds claimed by motor fuel purchasers. The refund is considered compensation for unclaimed motor vehicle fuel that is used in aircraft for purposes taxable under RCW 82.42.020. The director must also remit from the motor vehicle fund the taxes required by RCW 82.12.0256(2)(d) for the unclaimed refunds, provided that the sum of the amount refunded and the amount remitted in accordance with RCW 82.12.0256(2)(d) does not exceed the unclaimed refunds. Claims for refund of fuel tax must be for at least twenty dollars.

(2) Any amount determined to be refundable by the department under RCW 82.38.180 must first be credited on any amounts then due and payable from a person to whom the refund is due.

(3) No refund or credit may be approved by the department unless a written claim for refund or credit stating the specific grounds upon which the claim is founded is filed with the department:

(a) Within thirteen months from the date of purchase or from the last day of the month following the close of the reporting period for which the refundable amount or credit is due with respect to refunds or credits allowable under RCW 82.38.180, with the exception of the credits or refunds allowed under RCW 82.38.180(1)(c), and if not filed within this period the right to refund is barred.

(b) Within five years from the last day of the month following the close of the reporting period for which the overpayment is due with respect to the refunds or credits allowable under RCW 82.38.180(1)(c). The department must refund any amount paid that has been verified by the department to be more than twenty dollars over

the amount actually due for the reporting period. Payment credits may not be carried forward and applied to subsequent tax returns for a person licensed under this chapter.

(4) Within thirty days after disallowing any claim in whole or in part, the department must provide written notice of its action to the claimant.

(5) (a) Interest must be paid upon any refundable amount or credit due under RCW 82.38.180(1) (c) at the rate of one percent per month from the last day of the calendar month following the reporting period for which the refundable amount or credit is due.

(b) The interest must be paid:

(i) In the case of a refund, to the last day of the calendar month following the date upon which the claim is approved by the department.

(6) The department must pay interest of one percent on any refund payable under RCW 82.38.180 (1) or (2), except as provided in subsection (5)(a) of this section, which is issued more than thirty state business days after the receipt of a claim properly filed and completed. After the end of the thirty business-day period, additional interest accrues at the rate of one percent on the amount payable for each thirty calendar-day period. in any court for the recovery of any amount alleged to have been overpaid under RCW 82.38.180 unless a claim for refund or credit has been duly filed pursuant to RCW 82.38.190.

(2) Within ninety days after the mailing of the notice of the department's action upon a claim filed pursuant to RCW 82.38.190, the claimant may bring an action against the department on the grounds set forth in the claim in a court of competent jurisdiction in Thurston county for the recovery of the whole or any part of the amount with respect to which the claim has been disallowed. Failure to bring action within the time specified constitutes a waiver of any demand against the state on account of the alleged overpayments.

(3) If the department fails to mail notice of action on a claim within six months after the claim is filed, the claimant may, prior to the mailing of notice by the department of its intention on the claim, consider the claim disallowed and bring an action against the department, on the grounds set forth in the claim for the recovery of the whole or any part of the amount claimed as an overpayment.

The lien is effective from the date taxes were due and payable until the amount is satisfied. The lien has priority over any lien or encumbrance except liens of other taxes having priority by law.

(2) The department must file with any county auditor a statement of claim and lien specifying the amount of delinquent taxes, penalties, and interest owed. [2013 c 225 s 121; 1998 c 176 s 75; 1979 c 40 s 15; 1971 ex.s. c 175 s 22.]

If any person having an interest in or lien upon the property has filed notice with the department prior to the sale, the department must withhold payment of any excess to the person pending determination of the rights of the respective parties by a court of competent jurisdiction. If the receipt of the person is not available, the department must deposit the excess with the state treasurer as trustee for the person or their heirs, successors, or assigns. Prior to making any seizure of property, the department may

The agreement may provide mutually

agreeable means to address any tribal immunities or any preemption of the fuel tax.

(2) The provisions of this section do not repeal existing state/tribal fuel tax agreements or consent decrees in existence on May 15, 2007. The state and the tribe may agree to substitute an agreement negotiated under this section for an existing agreement or consent decree, or to enter into an agreement using a methodology similar to the state/tribal fuel tax agreements in effect on May 15, 2007.

While the legislature believes it has the authority to impose state motor vehicle and other fuel taxes under such circumstances, it also recognizes that all of the state citizens may benefit from resolution of these disputes between the respective governments." [1995 c 320 s 1.]

Effective date—1995 c 320: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately [May 11, 1995]." [1995 c 320 s 5.]

The licensee must pay fuel tax on the fuel at the time the licensee files their international fuel tax agreement tax return and accompanying schedule with the department. The accompanying schedule must be provided in a form and manner determined by the department and must contain information on purchases and usage of all nondyed special fuel purchased during the reporting period. In addition, by the fifteenth day of the month following the month in which fuel under the special authorization was purchased, the licensee must report to the department, the name of the seller and the number of gallons purchased for each purchase of such fuel, and any other information as the department may require.

(2) To receive or maintain special authorization under subsection (1) of this section, the following conditions regarding the international fuel tax agreement licensee must apply:

(b) Fuel blended or manufactured by a person not licensed in this state in accordance with this chapter to blend or manufacture fuel;

(c) All conveyances used, or intended for use, to transport, or in any manner to facilitate the transportation, for the purpose of sale or receipt of property described in (a) and (b) of this subsection, except where the owner of the conveyance neither had knowledge of nor consented to the transportation of the fuel by an unlicensed importer, blender, or manufacturer of fuel.

(2) Before seizing a common carrier conveyance, contract carrier conveyance, or a conveyance secured by a bona fide security interest where the secured party neither had knowledge of or consented to the unlawful act or omission, the state patrol or the department of licensing must give the common carrier, contract carrier, or secured party, or their representatives within twenty-four hours, a notice in writing served by mail or other means to cease transporting fuel for any person not licensed to import, blend, or manufacture fuel in this state.

(3) Property subject to forfeiture under this chapter may be seized by the state patrol upon process issued by a superior court or district court having jurisdiction over the property. Seizure without process may be made if:

(a) The seizure is incident to an arrest or a search under a search warrant or an administrative inspection; or

(b) The state patrol has probable cause to believe the property was used or is intended to be used in violation of this chapter and exigent circumstances exist making procurement of a search warrant impracticable. [2013 c 225 s 132; 2003 c 358 s 7.]

(2) The state patrol must list and particularly describe in duplicate the conveyance seized. After the appropriate appeal period has expired, a seized conveyance must be sold at a public auction in accordance with chapter 43.19 RCW.

(3) The state patrol must list and particularly describe in duplicate the fuel seized. The selling price of the fuel seized must be the average terminal rack price for similar fuel, at the closest terminal rack on the day of sale, unless circumstance warrants that a different selling price is appropriate. The method used to value the fuel must be documented. The fuel must be sold at the earliest point in time, and the total price must include all appropriate state and federal taxes. The state patrol or the department may enter into contracts for the transportation, handling, storage, and sale of fuel subject to forfeiture.

(4) The state patrol must, within five days after the seizure of a conveyance or fuel, cause notice to be served on the owner of the property seized, if known, on the person in charge of the property,

and on any other person having any known right or interest in the property, of the seizure and intended forfeiture. The notice may be served by any method authorized by law or court rule including but not limited to service by mail. If service is by mail it must be by both certified mail with return receipt requested and regular mail. Service by mail is deemed complete upon mailing within the five-day period after the date of seizure.

(5) If no person notifies the state patrol in writing of the person's claim of ownership or right to possession of the items seized within fifteen days of the date of the notice of seizure, the items seized are considered forfeited.

(6) If any person notifies the state patrol, in writing, of the person's claim of ownership or right to possession of the items seized within fifteen days of the date of the notice of seizure, the person or persons must be given a reasonable opportunity to be heard as to the claim or right. The hearing must be before the director of licensing, or the director's designee. A hearing and any appeals must be in accordance with chapter 34.05 RCW. The burden of proof by a preponderance of the evidence is upon the person claiming to be the lawful owner or the person claiming to have the lawful right to possession of the items seized. The state patrol and the department must promptly return the conveyance seized, and money from the sale of fuel seized, to the claimant upon a determination that the claimant is the present lawful owner and is lawfully entitled to possession of the items seized.
