RCW 28B.50.010 Short title. This chapter shall be known as and
may be cited as the community and technical college act of 1991.
[1991 c 238 s 20; 1969 ex.s. c 223 s 28B.50.010. Prior: 1967 ex.s. c 8
s 1. Formerly RCW 28.85.010.]

RCW 28B.50.020 Purpose. The purpose of this chapter is to provide for the dramatically increasing number of students requiring high standards of education either as a part of the continuing higher education program or for occupational education and training, or for adult basic skills and literacy education, by creating a new, independent system of community and technical colleges which will:

(1) Offer an open door to every citizen, regardless of his or her academic background or experience, at a cost normally within his or her economic means;

(2) Ensure that each college district, in coordination with adjacent college districts, shall offer thoroughly comprehensive educational, training, and service programs to meet the needs of both the communities and students served by combining high standards of excellence in academic transfer courses; realistic and practical courses in occupational education, both graded and ungraded; community services of an educational, cultural, and recreational nature; and adult education, including basic skills and general, family, and workforce literacy programs and services;

(3) Provide for basic skills and literacy education, and occupational education and technical training in order to prepare students for careers in a competitive workforce;

(4) Provide or coordinate related and supplemental instruction for apprentices at community and technical colleges;

(5) Provide administration by state and local boards which will avoid unnecessary duplication of facilities, programs, student services, or administrative functions; and which will encourage efficiency in operation and creativity and imagination in education, training, and service to meet the needs of the community and students;

(6) Allow for the growth, improvement, flexibility and modification of the community colleges and their education, training, and service programs as future needs occur; and

(7) Establish firmly that as provided under RCW 28B.50.810, community colleges are, for purposes of academic training, two year institutions, and are an independent, unique, and vital section of our state's higher education system, separate from both the common school system and other institutions of higher learning. [2010 c 246 s 2; 2010 c 245 s 2; 2009 c 64 s 2; 2005 c 258 s 7; 1991 c 238 s 21; 1969 ex.s. c 261 s 17; 1969 ex.s. c 223 s 28B.50.020. Prior: 1967 ex.s. c 8 s 2.]

Reviser's note: This section was amended by 2010 c 245 s 2 and by 2010 c 246 s 2, each without reference to the other. Both amendments are incorporated in the publication of this section under RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

Findings—Intent—2010 c 246: "The legislature finds that Washington's community and technical college system consists of thirty-four two-year institutions geographically dispersed across the state to encourage and enable student access and participation. The legislature also finds that, compared with other states, Washington's two-year public participation rate is ranked as high as fifth in the nation. The legislature further finds that Washington's community and technical colleges have been making and are continuing to make great progress towards system efficiencies and coordination of their efforts through such things as common course numbering, the student achievement initiative, associate transfer degrees, eLearning and integrated basic education, skills training, and some common

administrative systems. While maintaining Washington's recognized leadership in community and technical college education, the legislature intends to provide mechanisms to encourage further efficiencies that will provide cost savings to be used to enhance student access and success, strengthen academic programs, and develop and retain high quality faculty through cost-effective partnerships and coordination between institutions, including shared services and increased complementary programming, as well as structural administrative efficiencies." [2010 c 246 s 1.]

Findings—Expand on demand—System design plan endorsed—2010 c 245: "The legislature finds that the state institutions of higher education are providing a high quality education to the citizens of the state. The legislature further finds that to meet goals of the strategic master plan for higher education the state needs a higher education system that is capable of delivering many more degrees. The legislature also finds that expansion of the system should be based on the proven demands of the citizens and the marketplace, a concept called "expand on demand." The legislature further finds that the *higher education coordinating board, in collaboration with the state board for community and technical colleges, the two-year and four-year institutions of higher education, and other stakeholders developed a system design plan that contains seven guiding principles for system expansion, focuses near-term enrollment growth at university branch campuses, comprehensive universities, and university centers where existing capacity is available without new state capital investment, establishes a process for evaluating major new capital expansion, and creates a fund for innovation to foster change and innovation in higher education delivery. The legislature finds that the strategies in the plan support the concept of expand on demand and would increase degree production by first reinvesting in higher education to use existing capacity while also providing long-term strategies to guide decisions on when and where to build new campuses, significantly expand existing sites, and change missions of existing institutions.

The legislature endorses the system design plan, approved by the *higher education coordinating board in November 2009, and adopts the recommendations and strategies in the plan." [2010 c 245 s 1.]

***Reviser's note:** The higher education coordinating board was abolished by 2011 1st sp.s. c 11 s 301, effective July 1, 2012.

Intent—2009 c 64: "It is the intent of the legislature to allow public technical colleges under the authority of the state board for community and technical colleges to offer associate degrees that prepare students for transfer to bachelor's degrees in professional fields, subject to rules adopted by the state board for community and technical colleges." [2009 c 64 s 1.]

Findings—Intent—2005 c 258: See note following RCW 28B.45.014.

Severability—1969 ex.s. c 261: "If any provision of this 1969 amendatory act, or its application to any person or circumstance is held invalid, the remainder of the act, or the application of the provision to other persons or circumstances is not affected." [1969 ex.s. c 261 s 37. Formerly RCW 28.85.911.]

Intent—1991 c 315: "The legislature finds that:

(1) The economic health and well-being of timber-dependent communities is of substantial public concern. The significant reduction in annual timber harvest levels likely will result in reduced economic activity and persistent unemployment and underemployment over time, which would be a serious threat to the safety, health, and welfare of residents of the timber impact areas, decreasing the value of private investments and jeopardizing the sources of public revenue.

(2) Timber impact areas are most often located in areas that are experiencing little or no economic growth, creating an even greater risk to the health, safety, and welfare of these communities. The ability to remedy problems caused by the substantial reduction in harvest activity is beyond the power and control of the regulatory process and influence of the state, and the ordinary operations of private enterprise without additional governmental assistance are insufficient to adequately remedy the resulting problems of poverty and unemployment.

(3) To address these concerns, it is the intent of the legislature to increase training and retraining services accessible to timber impact areas, and provide for coordination of noneconomic development services in timber impact areas as economic development efforts will not succeed unless social, housing, health, and other needs are addressed." One member of the board shall be a student enrolled at a community or technical college.

(2) The members, except for the student member, shall be appointed for terms of four years except that a person appointed to fill a vacancy occurring prior to the expiration of any term shall be appointed only for the remainder of such term. (6) The college board may adopt rules to implement this section. [2025 c 91 s 2; 1991 c 238 s 30; 1988 c 76 s 1; 1984 c 287 s 64; 1982 1st ex.s. c 30 s 9; 1975-'76 2nd ex.s. c 34 s 74; 1973 c 62 s 13; 1969 ex.s. c 261 s 19; 1969 ex.s. c 223 s 28B.50.050. Prior: 1967 ex.s. c 8 s 5.]

Findings—Intent—2025 c 91: "The legislature recognizes that the decisions made by the state board for community and technical colleges greatly impact the lives and education experiences of students and that student participation in the decision-making process can provide meaningful insight into the impact of these decisions from the student perspective, which is unique compared to the perspective of traditional board members.

The legislature finds that students have served on higher education-related governing boards in Washington state and other states for decades. Specifically, students serve on the governing boards of systems of community and technical colleges in over 10 other states. Students also serve as voting members on both the Washington student achievement council and the workforce education investment accountability and oversight board. These opportunities have provided students the opportunity to contribute greatly to deliberations where they have been able to share ideas and concerns on decisions that directly impact students.

The legislature further finds that student perspectives offer the opportunity to bring the state board for community and technical colleges closer to the student community that it serves. Being on campus and in class every day, students are exposed directly to many topics of interest to the board, which is important for comprehensive and in-depth discussion. Moreover, student populations at community and technical colleges are the most diverse of any institution of higher education in the state, and thus the student member would be exposed to a more diverse group than any other member of the board representing any one group of the community.

Additionally, the legislature acknowledges that student positions on governing boards are also a valuable tool for developing leadership through experiential learning. Student members learn processes of institutional governance, analyze policy proposals, and participate in board discussions and decision making.

Therefore, it is the intent of the legislature to enhance community college governance by the state board of [for] community and technical colleges through fostering a stronger relationship with students in policy development and decision making at the state level." [2025 c 91 s 1.]

In the event a new college district is created, the governor shall appoint new trustees to the district's board of trustees in accordance with RCW 28B.50.100. [1991 c 238 s 134.]

RCW 28B.50.100 Boards of trustees—Generally. There is hereby created a board of trustees for each college district as set forth in this chapter. Each board of trustees shall be composed of five trustees, except as provided in RCW 28B.50.102, who shall be appointed by the governor for terms commencing October 1st of the year in which appointed. In making such appointments, the governor shall give consideration to geographical diversity, and representing labor, business, women, and racial and ethnic minorities, in the membership of the boards of trustees. The boards of trustees for districts containing technical colleges shall include at least one member from business and one member from labor.

The successors of the trustees initially appointed shall be appointed by the governor to serve for a term of five years except that any person appointed to fill a vacancy occurring prior to the expiration of any term shall be appointed only for the remainder of the term. Each member shall serve until a successor is appointed and qualified.

Members of the boards of trustees may be removed for misconduct or malfeasance in office in the manner provided by RCW 28B.10.500. [2013 c 23 s 58. Finding—Intent—2012 c 148: "The legislature finds that decisions made by governing boards of each respective institution greatly impact the lives of students and that student participation in the decision-making process can provide insight into the impacts of actions by trustees that are not always measurable through reports and statistics. Students are on campus every day using services and experiencing aspects of the institution that board members may only see on paper, providing a unique and valuable perspective that should not be overlooked.

Students serving on governing boards of higher education have proven effective in Washington and in over thirty other states. For over ten years students at Washington's four-year institutions of higher education have served as voting members on the board of trustees, regents, and the *higher education coordinating board, providing greater depth in board deliberations and a well-educated conduit for students to voice ideas and concerns.

The student perspective at community colleges also brings the board closer to their community. Student populations at community colleges are the most diverse of any institution of higher education in the state. Being on campus and in class every day, students are exposed to a more diverse group than any member of the board representing any one group of the community.

Student positions on governing boards are also a valuable tool for developing leadership through experiential learning. Student members learn processes of institutional governance, become involved in campus projects, analyze policy proposals, and participate in board discussions and decision making.

It is the intent of the legislature to enhance community college governance by fostering a more dynamic relationship between students and institutions through the encouragement of student participation in policy development and decision making at the district and state level." [2012 c 148 s 1.]

The curricula and materials shall be reviewed for medical accuracy by the office on AIDS in coordination with the appropriate regional AIDS service network. [1991 c 238 s 44; 1988 c 206 s 502.]

RCW 28B.50.215 Overlapping service areas—Regional planning agreements. The colleges in each overlapping service area shall jointly submit for approval to the state board for community and technical colleges a regional planning agreement. The agreement shall provide for the ongoing interinstitutional coordination of community and technical college programs and services operated in the overlapping service area. The agreement shall include the means for the adjudication of issues arising from overlapping service areas. The agreement shall include a definitive statement of mission, scope, and purpose for each college including the nature of courses, programs, and services to be offered by each college.

Technical colleges may, under the rules of the state board for community and technical colleges, offer all specific academic support courses that may be at a transfer level that are required of all students to earn a particular certificate or degree. This shall not be interpreted to mean that their mission may be expanded to include transfer preparation, nor does it preclude technical colleges from voluntarily and cooperatively using available community college courses as components of technical college programs.

Any part of the agreement that is not approved by all the colleges in the service area, shall be determined by the state board for community and technical colleges. Approved regional planning agreements shall be enforced by the full authority of the state board for community and technical colleges. Changes to the agreement are subject to state board approval.

For the purpose of creating and adopting a regional planning agreement, the trustees of the colleges in Pierce county shall form a county coordinating committee. The county coordinating committee shall consist of eight members. Each college board of trustees in Pierce county shall select two of its members to serve on the county coordinating committee. The county coordinating committee shall not employ its own staff, but shall instead utilize staff of the colleges in the county. RCW 28B.50.216 Identification and implementation of potential administrative efficiencies, complementary administrative functions, and complementary academic programs within regional area—Plan—

Retention of cost savings—Reports. (1) The state board for community and technical colleges, in collaboration with the boards of trustees for the community and technical colleges, shall identify potential administrative efficiencies, complementary administrative functions, and complementary academic programs based upon consultation with colleges within a regional area. To study and identify potential administrative efficiencies and complementary administrative functions and programs, colleges within the regional area shall work with stakeholders including faculty and staff representatives appointed by their respective unions. Factors to be considered include, but are not limited to:

(a) The economic feasibility and cost savings anticipated from the proposed changes;

(b) The extent to which the changes will contribute to student access to academic programs and services, including greater flexibility for students to transfer credits and obtain degrees and certificates from other colleges within the regional area; and

(c) The extent to which the changes contribute to the vision, goals, priorities, and statewide strategies in the comprehensive master plan and the statewide strategic master plan for higher education.

(2) The state board for community and technical colleges shall develop and adopt a detailed plan for the implementation of any identified changes that would result in cost savings while maintaining or enhancing student access and achievement. If educational programs are identified that would provide cost savings if consolidated, the faculty and staff of those programs shall be convened to assist in the development of the part of the plan that will impact their programs and collective bargaining agreements. The plan must establish a time frame within which any proposed changes must be accomplished and must include any agreements, approved by the state board for community and technical colleges, between colleges within a regional area to provide complementary academic programs or coordinate administrative functions. The implementation plan shall take effect upon approval by the state board for community and technical colleges. The state board shall submit a preliminary report on the plan to the appropriate legislative committees and the governor December 1, 2010, and shall submit a final report December 1, 2011.

(3) Any cost savings realized as a result of the implementation of administrative efficiencies, complementary administrative functions, and complementary academic programming under the plan shall be retained by the respective districts to be used for enhancing student access and success, and the retention and recruitment of high quality faculty, including but not limited to, full-time faculty, faculty development, and academic programs.

(4) The college board, using the criteria and processes established in this section and in consultation with the boards of trustees for the community and technical colleges, shall identify adjacent college districts that can feasibly be consolidated or whose boundaries can feasibly be modified to form a multiple campus district. The primary considerations shall be the extent to which the changes will: (a) Affect student access to academic programs and services, (b) affect the retention and recruitment of high quality faculty, and (c) result in financial efficiencies.

(5) By December 1, 2012, the college board, in consultation with local boards of trustees, shall evaluate any proposed district consolidations or boundary changes identified in subsection (4) of this section as it deems advisable and shall submit any required supporting legislative changes to the governor and appropriate committees of the legislature. Short title—2009 c 536: See note following RCW 43.330.370.

RCW 28B.50.295 Emergency assistance grant program. (1) (a)

Subject to availability of amounts appropriated for this specific purpose, the emergency assistance grant program is established to provide students of community and technical colleges monetary aid to assist students experiencing unforeseen emergencies or situations that affect the student's ability to attend classes.

(b) The college board shall administer the competitive grant program in accordance with this section.

(2) The college board shall establish eligibility criteria for community and technical colleges to apply for grants under the grant program. At a minimum, to be eligible for a grant, a community or technical college must:

(a) Demonstrate the need for grant funds. Demonstrating need may include producing demographic data on student income levels, the number of students experiencing food insecurity or homelessness, the number of students who meet the definition of "needy student" under *RCW 28B.92.030, the number of students accessing the college's food pantry, if one is available, and other information specific to the student population;

(b) Ensure that students' access to emergency aid funds will be as low barrier as possible and will not require the student to have to fill out the free application for federal student aid to receive emergency funds. However, the college must require the student to request assistance in writing;

(c) Allow flexibility in which students may apply for emergency aid funds. Students who may not meet the definition of "needy student" but who may be experiencing emergency situations must be able to apply for emergency aid funds; and

(d) Indicate how the college will prioritize the disbursement of emergency aid funds.

(3) In selecting grant recipients, the college board must consider a community or technical college's demonstration of need and the resources and programs already in existence at the college.

(4) A community or technical college shall use grant funds to provide students emergency aid in the form of monetary grants to assist the student in, for example, purchasing food, paying utilities or rent, paying for transportation, child care, or other goods or services that the student needs in order to continue to attend classes. Emergency aid under the grant program is considered a grant and a student is not required to reimburse the community or technical college.

(5) The college board must begin accepting applications for the grant program by December 1, 2019.

(6) The college board shall submit a report to the appropriate committees of the legislature beginning December 1, 2020, and each December 1st thereafter. At a minimum, the report must:

(a) Identify the community and technical colleges receiving grants and the amounts of the grants; and

(b) Summarize how the community and technical colleges distributed funds to students, and provide the number of students, the amounts, and the emergency conditions for which funds were granted.

***Reviser's note:** RCW 28B.92.030 was amended by 2019 c 406 s 21, deleting the definition of "needy student."

Findings—Intent—2019 c 407: "(1) The legislature finds that students who receive supplemental nutrition assistance program benefits in the form of an electronic benefit transfer card cannot use these benefits to purchase food items from on-campus food retail establishments at institutions of higher education. On-campus food retail establishments or point-of-sale locations such as cafeterias, bookstores, and cafes do not qualify as retail food stores under the federal food and nutrition act of 2008 because these on-campus food retail establishments either do not sell enough categories of staple foods or do not gross over fifty percent of their total sales from staple foods.

(2) The legislature recognizes that students perform better in classes when they are well-nourished, yet finds that students who receive supplemental nutrition assistance program benefits have to travel off campus to use their benefits at a participating vendor, incurring extra travel costs, reducing study time, and causing unnecessary stress.

(3) The legislature finds that this limitation on the use of supplemental nutrition assistance program benefits is a barrier that prevents public and private institutions of higher education from providing equal access to food retail establishments on campuses to all students, faculty, and staff regardless of economic status. The legislature recognizes that eliminating this barrier is vital to assuring equal access to every aspect of Washington's public and private institutions of higher education.

(4) The legislature intends to have the department of social and health services request a waiver from the United States department of agriculture to allow students to use their electronic benefit transfer card at on-campus food retail establishments at Washington's public and private institutions of higher education." [2019 c 407 s 2.]

Conflict with federal requirements—2019 c 407: "If any part of this act is found to be in conflict with federal requirements that are a prescribed condition to the allocation of federal funds to the state, the conflicting part of this act is inoperative solely to the extent of the conflict and with respect to the agencies directly affected, and this finding does not affect the operation of the remainder of this act in its application to the agencies concerned. Rules adopted under this act must meet federal requirements that are a necessary condition to the receipt of federal funds by the state." [2019 c 407 s 6.]

RCW 28B.50.305 Seattle Vocational Institute—Findings. The legislature finds that a vocational institute in the central area of the city of Seattle provides civic, social, and economic benefits to the people of the state of Washington. Economic development is enhanced by increasing the number of skilled individuals who enter the labor market and social welfare costs are reduced by the training of individuals lacking marketable skills. The students at the institute are historically economically disadvantaged, and include racial and ethnic minorities, recent immigrants, single-parent heads of households, and persons who are dislocated workers or without specific occupational skills. The institute presents a unique opportunity for business, labor, and community-based organizations, and educators to work together to provide effective vocational-technical training to

the economically disadvantaged of urban Seattle, and to serve as a national model of such cooperation. Moreover, a trained workforce is a major factor in attracting new employers, and with greater minority participation in the workforce, the institute is uniquely located to deliver training and education to the individuals employers must increasingly turn to for their future workers. [1991 c 238 s 93.]

RCW 28B.50.306 Seattle Vocational Institute—Mission—Advisory committee to advise. The mission of the institute shall be to provide occupational, basic skills, and literacy education opportunities to economically disadvantaged populations in urban areas of the college district it serves. The mission shall be achieved primarily through open-entry, open-exit, short-term, competency-based basic skill, and job training programs targeted primarily to adults. The board of trustees of the sixth college district shall appoint a nine-member advisory committee consisting of equal representation from business, labor, and community representatives to provide advice and counsel to the administration of the institute and the district administration. [1991 c 238 s 100.]

RCW 28B.50.307 Seattle Vocational Institute—Funding. Funding for the institute shall be included in a separate allocation to the sixth college district, and funds allocated for the institute shall be used only for purposes of the institute. [1991 c 238 s 101.]

RCW 28B.50.320 Fees and other income—Deposit—Disbursement. All operating fees, services and activities fees, and all other income which the trustees are authorized to impose shall be deposited as the trustees may direct unless otherwise provided by law. Such sums of money shall be subject to the budgetary and audit provisions of law applicable to state agencies. The depository selected by the trustees shall conform to the collateral requirements required for deposit of other state funds.

Disbursement shall be made by check signed by the president of the college or the president's designee appointed in writing, and such other person as may be designated by the board of trustees of the college district. Each person authorized to sign as provided above, shall execute a surety bond as provided in RCW 43.17.100. Said bond or bonds shall be filed in the office of the secretary of state. RCW 28B.50.328 Waivers of tuition and fees—Scholarships—Employment of instructional staff and faculty—Seattle Vocational Institute. The district may provide for waivers of tuition and fees and provide scholarships for students at the institute. The district may negotiate with applicable public or private service providers to

conduct the instructional activities of the institute. The district may employ instructional staff or faculty. The district may also contract with private individuals for instructional services. Until at least July 1, 1993, all faculty and staff serve at the pleasure of the district. In order to allow the district flexibility in its personnel policies with the institute, the district and the institute, with reference to employees of the institute employed during an initial two-year period until July 1, 1993, are exempt from chapters *28B.16, 28B.52 (relating to collective bargaining), 41.04, 41.05, 41.06, and 41.40 RCW; from RCW 43.01.040 through 43.01.044; and from RCW 28B.50.551 and 28B.50.850 through 28B.50.875 (relating to faculty tenure). [1991 c 238 s 103.]

***Reviser's note:** Chapter 28B.16 RCW was repealed by 1993 c 281, with the exception of RCW 28B.16.015 and 28B.16.240, which was recodified as RCW 41.06.382. The powers, duties, and functions of the state higher education personnel board were transferred to the Washington personnel resources board. RCW 28B.16.015 and 41.06.382 were subsequently repealed by 2002 c 354 s 403, effective July 1, 2005.

RCW 28B.50.330 Construction, reconstruction, equipping, and demolition of community and technical college facilities and acquisition of property—Revenue bond financing—Public bid. (1) The boards of trustees of college districts are empowered in accordance with the provisions of this chapter to provide for the construction, reconstruction, erection, equipping, demolition, and major alterations of buildings and other capital assets, and the acquisition of sites, rights-of-way, easements, improvements, or appurtenances for the use of the aforementioned colleges as authorized by the college board in accordance with RCW 28B.50.140; to be financed by bonds payable out of special funds from revenues hereafter derived from income received from such facilities, gifts, bequests, or grants, and such additional funds as the legislature may provide, and payable out of a bond retirement fund to be established by the respective district boards in accordance with rules of the state board. With respect to building, improvements, or repairs, or other work, where the estimated cost exceeds \$110,000, or \$90,000 if the work involves one trade or craft area, complete plans and specifications for the work shall be prepared, the work shall be put out for a public bid, and the contract shall be awarded to the responsible bidder who submits the lowest responsive bid. Any project regardless of dollar amount may be put to public bid.

(2) This section does not apply when a contract is awarded by the small works roster procedure authorized in RCW 39.04.151 through 39.04.154.

(3) Where the estimated cost to any college of any building, improvements, or repairs, or other work, is less than \$110,000, or \$90,000 if the work involves one trade or craft area, the publication requirements of RCW 39.04.020 do not apply. RCW 28B.50.360 Construction, reconstruction, equipping, and demolition of community and technical college facilities and acquisition of property—Community and technical college capital projects account—Disposition of building fees. Within 35 days from the date of start of each quarter all collected building fees of each such community and technical college shall be paid into the state treasury, and shall be credited as follows:

(1) On or before June 30th of each year the college board, if issuing bonds payable out of building fees, shall certify to the state treasurer the amounts required in the ensuing 12-month period to pay and secure the payment of the principal of and interest on such bonds. The state treasurer shall thereupon deposit the amounts so certified in the community and technical college capital projects account. Such amounts of the funds deposited in the community and technical college capital projects account as are necessary to pay and secure the payment of the principal of and interest on the building bonds issued by the college board as authorized by this chapter shall be devoted to that purpose. If in any 12-month period it shall appear that the amount certified by the college board is insufficient to pay and secure the payment of the principal of and interest on the outstanding building bonds, the state treasurer shall notify the college board and such board shall adjust its certificate so that all requirements of moneys to pay and secure the payment of the principal and interest on all such bonds then outstanding shall be fully met at all times.

(2) The community and technical college capital projects account is hereby created in the state treasury. The sums deposited in the capital projects account shall be appropriated and expended to pay and secure the payment of the principal of and interest on bonds payable out of the building fees and for the construction, reconstruction, erection, equipping, maintenance, demolition and major alteration of buildings and other capital assets owned by the state board for community and technical colleges in the name of the state of Washington, and the acquisition of sites, rights-of-way, easements, improvements or appurtenances in relation thereto, engineering and architectural services provided by the department of enterprise services, and for the payment of principal of and interest on any bonds issued for such purposes. During the 2023-2025 and 2025-2027 fiscal biennia, sums in the capital projects account may also be used for routine facility maintenance and utility costs.

(3) Funds available in the community and technical college capital projects account may also be used for certificates of participation under chapter 39.94 RCW. The state employees' benefit board shall adopt rules to preclude any preexisting conditions or limitations in existing health care service contracts for school district employees at vocational-technical institutes transferred to the state board for community and technical colleges. [1991 c 238 s 137.]

RCW 28B.50.489 Part-time academic employees—State-mandated benefits—Definitions. For the purposes of determining eligibility of state-mandated insurance, retirement benefits under RCW 28B.10.400, and sick leave for part-time academic employees in community and technical colleges, the following definitions shall be used:

(1) "Full-time academic workload" means the number of in-class teaching hours that a full-time instructor must teach to fulfill his or her employment obligations in a given discipline in a given college. If full-time academic workload is defined in a contract adopted through the collective bargaining process, that definition shall prevail. If the full-time workload bargained in a contract includes more than in-class teaching hours, only that portion that is in-class teaching hours may be considered academic workload.

(2) "In-class teaching hours" means contact classroom and lab hours in which full or part-time academic employees are performing contractually assigned teaching duties. The in-class teaching hours shall not include any duties performed in support of, or in addition to, those contractually assigned in-class teaching hours.

(3) "Academic employee" in a community or technical college means any teacher, counselor, librarian, or department head who is employed by a college district, whether full or part-time, with the exception of the chief administrative officer of, and any administrator in, each college district.

(4) "Part-time academic workload" means any percentage of a full-time academic workload for which the part-time academic employee is not paid on the full-time academic salary schedule. [2000 c 128 s 2; 1996 c 120 s 1.]

Construction—2000 c 128: See note following RCW 28B.52.220.

RCW 28B.50.4891 Part-time academic employees—State-mandated benefits—Reporting eligible employees. For the purposes of determining eligibility for receipt of state-mandated benefits for part-time academic employees at community and technical colleges, each institution shall report to the appropriate agencies the names of eligible part-time academic employees who qualify for benefits based on calculating the hours worked by part-time academic employees as a percentage of the part-time academic workload to the full-time academic workload in a given discipline in a given institution. [1996 c 120 s 2.]

RCW 28B.50.4892 Part-time academic employees—Best practices compensation and employment—Task force—Report. (1) The legislature finds that community colleges and technical colleges have an obligation to carry out their roles and missions in an equitable fashion. The legislature also finds that governing boards for community colleges and technical colleges have a responsibility to provide leadership and guidance to their colleges in the equitable treatment of part-time faculty teaching in the community and technical colleges.

(2) The state board for community and technical colleges shall convene a task force to conduct a review and update of the best practices audit of compensation packages and conditions of employment for part-time faculty in the community and technical college system conducted in 1996 and reported on in 1998. The task force shall include but need not be limited to part-time faculty, full-time faculty, members of the state board, community college administrators, and members of community college and technical college governing boards. In performing the review and update of the audit, the task force shall focus on the employment of part-time faculty, and shall include the following issues in its deliberations: Salary issues, provision of health and retirement benefits, the implications of increased reliance on part-time rather than full-time faculty, the implications of workload definitions, and tangible and intangible ways to recognize the professional stature of part-time faculty.

(3) The task force shall report its findings to the state board, local governing boards, and other interested parties by December 1, 2005. The report shall include recommendations on a review of the status of the set of best practices principles for the colleges to follow in their employment of part-time faculty developed in 1996. The state board for community and technical colleges shall adopt and periodically update a set of best practices principles for colleges in the community and technical college system to follow in their employment of part-time faculty. The board shall use the best practices principles in the development of each biennial operating budget request. The board shall encourage and, to the extent possible, require each local governing board to adopt, revise, and implement the principles. [2005 c 119 s 2; 1996 c 120 s 3.]

Findings—2005 c 119: "The legislature finds that:

(1) The part-time faculty in the community and technical colleges provide a valuable contribution to quality instruction;

(2) The part-time faculty are essential to the success of the open access opportunities provided by the two-year colleges to the citizens of Washington;

(3) The two-year colleges employ a core of skilled, well-trained faculty whose contributions are critical to the quality and breadth of program offerings;

(4) The community and technical colleges have an essential role in educating and retraining high-skilled workers who are vital to the economic health of the communities of Washington;

(5) It is vital to attract and retain highly skilled faculty capable of preparing students to transfer to four-year colleges and universities and for the workforce;

(6) Low and stagnating salaries as well as the lack of career advancement options for part-time faculty are detrimental to the morale of all faculty;

(7) Part-time faculty contribute to the learning environment offered to the students through advising and attention that all good educators bring to their profession; and

(8) Although progress has been made since the initial work of the best practices task force in 1996, additional progress needs to be made to improve and implement best practices for part-time community and technical college faculty." [2005 c 119 s 1.]

RCW 28B.50.4893 Part-time academic employees—Sick leave. (1) Part-time academic employees of community and technical colleges shall receive sick leave to be used for the same illnesses, injuries, bereavement, and emergencies as full-time academic employees at the college in proportion to the individual's teaching commitment at the college.

(2) The provisions of RCW 41.04.665 shall apply to leave sharing for part-time academic employees who accrue sick leave under subsection (1) of this section.

(3) The provisions of RCW 28B.50.553 shall apply to remuneration for unused sick leave for part-time academic employees who accrue sick leave under subsection (1) of this section. [2000 c 128 s 1.]

RCW 28B.50.4894 Part-time academic employees—Continuous health care eligibility—Employer contributions. Health care benefits for part-time academic employees are governed by *RCW 41.05.053. [2006 c 308 s 3.]

RCW 28B.50.515 Community and technical college innovation account—Expenditures—Strategic technology plan—Enterprise resource planning. (1) The community and technical college innovation account is created in the custody of the state treasurer. All receipts from operating fees in RCW 28B.15.031(2) must be deposited into the account. Expenditures from the account may be used only as provided in subsection (2) of this section. Only the director of the college board

or the director's designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures.

(2) Funds in the community and technical college innovation account may be used solely to:

(a) Pay and secure the payment of the principal of and interest on financing contracts, such as certificates of participation issued for the innovation account under chapter 39.94 RCW and authorized by the legislature; and

(b) Implement the college board's strategic technology plan to improve student achievement, student services, and increase systemwide administrative efficiencies. The college board must approve projects under the strategic technology plan to improve student achievement, student services, and increase systemwide administrative efficiencies before the director authorizes expenditures to be made. For large enterprise resource planning projects, the college board shall develop a technical and operational business plan and submit it to the legislature for approval before the project can be implemented.

(3) Consistent with the implementation of the strategic technology plan, the college board and the community and technical colleges shall engage in substantial business process reengineering and adopt systemwide approaches to admissions, financial aid, student identification numbers, student transcripts, and other systemwide processes.

(4) If the community and technical college system pursues an enterprise resource planning solution, they shall consider adoption of existing solutions already deployed at institutions of higher education in the state; short and long-term total costs of ownership; opportunities for partnerships, collaboration, coordination and consolidation with other entities in higher education; technical flexibility; and other requirements that support costs efficiencies. If the college board adopts a plan for an enterprise solution that is not coordinated with other institutions of higher education, authorization of expenditure of funds by the legislature must be approved by the office of financial management. [2011 c 274 s 3.]

Finding—Intent—2011 c 274: "(1) The legislature finds that the community and technical college system mission to ensure affordable access to higher education geographically distributed throughout the state is aligned with innovative approaches to learning and substantial efficiencies that have been implemented since the legislature established the system in 1967. Systemic approaches include a common accounting system, a common administrative computing system, a single system budget request for operating and capital expenses, and common course numbering. Innovative approaches include the system's e-learning platform, the adoption of open educational resources, and the adoption of lecture-capture tools that allow students to replay lectures, review classroom materials, and distribute outstanding instruction via the web anytime, anywhere.

(2) It is the intent of the legislature to further enhance the community and technical college system by making the maximum use of technologies to:

(a) Help dismantle the barriers of geographic isolation, cost, competing demands of work and family life, and past educational failure;

(b) Create a system for learning that is welcoming to all, easy to enter and use, and tailored to the needs of each learner; and

(c) Foster personal relationships and support all students and their families to learn and thrive." [2011 c 274 s 1.]

RCW 28B.50.520 Federal funds, receipt of authorized. The district boards of trustees and the common school boards are hereby authorized to enter into agreements for the use by either of the other's services, facilities or equipment and for the presentation of courses of either for students of the other where such agreements are deemed to be in the best interests of the education of the students involved. RCW 28B.50.531 Dual high school and college credit for secondary career and technical courses—Agreements. (1) It is the legislature's intent to recognize and support the work of community and technical colleges, high schools, and skill centers in creating articulation and dual credit agreements for career and technical education students, in part by codifying current practice.

(2) Community and technical colleges shall create agreements with high schools and skill centers to offer dual high school and college credit for secondary career and technical courses. Agreements shall be

subject to approval by the chief instructional officer of the college and the principal and the career and technical education director of the high school or the executive director of the skill center.

(3) Community and technical colleges may create dual credit agreements with high schools and skill centers that are located outside the college district boundary or service area.

(4) If a community or technical college has created an agreement with a high school or skill center to offer college credit for a secondary career and technical course, all community and technical colleges shall accept the course for an equal amount of college credit. [2008 c 170 s 108.]

Findings—Intent—2008 c 170: See RCW 28A.700.005.

RCW 28B.50.532 Completion of industry certificate or credential—Agreements with skill centers. (1) A community or technical college may enter into an agreement with a skill center within the college district to allow students who have completed a high school diploma to remain enrolled in the skill center in courses necessary to complete an industry certificate or credential in the student's career and technical program as provided by RCW 28A.245.080.

(2) Before entering an agreement, a community or technical college may require the skill center to provide evidence that:

(a) The skill center has adequate facilities and capacity to offer the necessary courses and the community or technical college does not have adequate facilities or capacity; or

(b) The community or technical college does not offer the particular industry certificate program or courses proposed by the skill center.

(3) Under the terms of the agreement, the community or technical college shall report the enrolled student as a state-supported student and may charge the student tuition and fees. The college shall transmit to the skill center an agreed-upon amount per enrolled full-time equivalent student to pay for the student's courses at the skill center. [2008 c 170 s 305.]

Findings—Intent—2008 c 170: See RCW 28A.700.005.

RCW 28B.50.533 Contracts with common school districts for occupational and academic programs for high school students—Enrollment opportunities—Interlocal agreements. Community and technical colleges may contract with local common school districts to provide occupational and academic programs for high school students. Common school districts whose students currently attend vocational-technical institutes shall not suffer loss of opportunity to continue to enroll their students at technical colleges.

For the purposes of this section, "opportunity to enroll" includes, but is not limited to, the opportunity of common school districts to enroll the same number of high school students enrolled at each vocational-technical institute during the period July 1, 1989, through June 30, 1990, and the opportunity for common school districts to increase enrollments of high school students at each technical college in proportion to annual increases in enrollment within the school districts participating on September 1, 1991. Technical

colleges shall offer programs which are accessible to high school students to at least the extent that existed during the period July 1, 1989, through June 30, 1990, and to the extent necessary to accommodate proportional annual growth in enrollments of high school students within school districts participating on September 1, 1991. Accommodating such annual increases in enrollment or program offerings shall be the first priority within technical colleges subject to any enrollment or budgetary restrictions. Technical colleges shall not charge tuition or student services and activities fees to high school students enrolled in the college.

Technical colleges may enter into interlocal agreements with local school districts to provide instruction in courses required for high school graduation, basic skills, and literacy training for students enrolled in technical college programs. [1991 c 238 s 82.]

RCW 28B.50.535 Community or technical college—Issuance of high school diploma or certificate. A community or technical college may issue a high school diploma or certificate as provided under this section.

(1) An individual who satisfactorily meets the requirements for high school completion shall be awarded a diploma from the college, subject to rules adopted by the superintendent of public instruction and the state board of education.

(2) An individual sixteen years or older or enrolled through the option established under RCW 28A.600.310 through 28A.600.400, who satisfactorily completes an associate degree through a community or technical college, including an associate of arts degree, associate of science degree, associate of technology degree, or associate in applied science degree, shall be awarded a diploma from the college upon written request from the student. Individuals under twenty-one years of age under this subsection are eligible for funding provided under chapter 28A.150 RCW. [2019 c 269 s 1; 2017 c 93 s 1; 2009 c 524 s 2; 2007 c 355 s 2; 1991 c 238 s 58; 1969 ex.s. c 261 s 30.]

Intent—2009 c 524: "The legislature has previously affirmed the value of career and technical education, particularly in programs that lead to nationally recognized certification. These programs provide students with the knowledge and skills to become responsible citizens and contribute to their own economic well-being and that of their families and communities, which is the goal of education in the public schools. The legislature has also previously affirmed the value of dual enrollment in college and high school programs that can lead to both an associate degree and a high school diploma. Therefore, the legislature intends to maximize students' options and choices for completing high school by awarding diplomas to students who complete these valuable postsecondary programs." [2009 c 524 s 1.]

Finding—Intent—2007 c 355: "The legislature finds that the goal of Washington's education reform is for all students to meet rigorous academic standards so that they are prepared for success in college, work, and life. Educators know that not all students learn at the same rate or in the same way. Some students will take longer to meet the state's standards for high school graduation. Older students who cannot graduate with their peers need an appropriate learning environment and flexible programming that enables them simultaneously

to earn a diploma, work, and pursue other training options. Providing learning options in locations in addition to high schools will encourage older students to complete their diplomas. Therefore the legislature intends to create a pilot high school completion program at two community and technical colleges for older students who have not yet received a diploma but are eligible for state basic education support." [2007 c 355 s 1.]

Severability—1969 ex.s. c 261: See note following RCW 28B.50.020.

RCW 28B.50.536 Test to earn a high school equivalency certificate—Rules—Issuance of high school equivalency certificate.
(1) Subject to rules adopted by the state board of education under RCW 28A.305.190, the state board for community and technical colleges shall adopt rules governing the eligibility of persons sixteen years of age and older to take a test to earn a high school equivalency certificate, rules governing the administration of the test, and rules governing the issuance of a high school equivalency certificate to persons who successfully complete the test.

(2) A high school equivalency certificate is a certificate issued jointly by the college board and the office of the superintendent of public instruction that indicates that the holder has attained standard scores at or above the minimum proficiency level prescribed by the college board on a high school equivalency test. The college board must identify and accept a high school equivalency test that is at least as rigorous as the general educational development test. The high school equivalency test identified by the college board must cover reading, writing, mathematics, science, and social studies subject areas.

(3) High school equivalency certificates issued under this section shall be issued in such form and substance as agreed upon by the state board for community and technical colleges and superintendent of public instruction. [2013 c 39 s 9; 1993 c 218 s 3.]

RCW 28B.50.551 Leave provisions. The board of trustees of each college district shall adopt for each community and technical college under its jurisdiction written policies on granting leaves to employees of the district and those colleges, including but not limited to leaves for attendance at official or private institutions and conferences; professional leaves for personnel consistent with the provisions of RCW 28B.10.650; leaves for illness, injury, bereavement, and emergencies, consistent with RCW 28B.50.4893, and except as otherwise in this section provided, all with such compensation as the board of trustees may prescribe, except that the board shall grant to all such persons leave with full compensation for illness, injury, bereavement and emergencies as follows:

(1) For persons under contract to be employed, or otherwise employed, for at least three quarters, not more than twelve days per year, commencing with the first day on which work is to be performed; provisions of any contract in force on June 12, 1980, which conflict with requirements of this subsection shall continue in effect until

contract expiration; after expiration, any new contract executed between the parties shall be consistent with this subsection;

(2) (a) Such leave entitlement may be accumulated after the first three-quarter period of employment for full-time employees, and may be taken at any time;

(b) For part-time academic employees, such leave entitlement shall be accumulated after the first quarter of employment by a college district or the first quarter after June 8, 2000, whichever is later, and may be taken at any time;

(3) Leave for illness, injury, bereavement and emergencies heretofore accumulated pursuant to law, rule, regulation or policy by persons presently employed by college districts and community and technical colleges shall be added to such leave accumulated under this section;

(4) Except as otherwise provided in this section or other law, accumulated leave under this section not taken at the time such person retires or ceases to be employed by college districts or community and technical colleges shall not be compensable;

(5) Accumulated leave for illness, injury, bereavement and emergencies shall be transferred from one college district to another or between a college district and the following: Any state agency, any educational service district, any school district, or any other institution of higher education as defined in RCW 28B.10.016;

(6) Leave accumulated by a person in a college district or community and technical college prior to leaving that district or college may, under the policy of the board of trustees, be granted to such person when he or she returns to the employment of that district or college; and

RCW 28B.50.553 Attendance incentive program. (1) Unless the context clearly requires otherwise, the definitions in this subsection apply throughout this section.

(a) "Employer" means the board of trustees for each college district or the state board for community and technical colleges.

(b) "Eligible employee" means an employee of a college district or the state board for community and technical colleges who belongs to one of the following classifications:

(i) Academic employees as defined in RCW 28B.52.020;

(ii) Classified employees of technical colleges whose employment is governed under chapter 41.56 RCW;

(iii) Professional, paraprofessional, and administrative employees exempt from chapter 41.06 RCW; and

(iv) Employees of the state board for community and technical colleges who are exempt from chapter 41.06 RCW.

(2) An attendance incentive program is established for all eligible employees of a college district or the state board for community and technical colleges entitled to accumulate sick leave and for whom accurate sick leave records have been maintained. An eligible employee may not receive compensation under this section for a portion of sick leave accumulated at a rate in excess of one day per month.

(3) In January of the year following a year in which a minimum of sixty days of sick leave is accrued, and each following January, an eligible employee may exercise an option to receive remuneration for unused sick leave accumulated in the previous year at a rate equal to one day's monetary compensation of the employee for each four full days of accrued sick leave in excess of sixty days. Sick leave for which compensation has been received shall be deducted from accrued sick leave at the rate of four days for every one day's monetary compensation.

(4) At the time of separation from employment with a college district or the state board for community and technical colleges due to retirement or death, an eligible employee or the employee's estate may receive remuneration at a rate equal to one day's current monetary compensation of the employee for each four full days' accrued sick leave.

(5) In lieu of remuneration for unused sick leave at retirement as provided in subsection (4) of this section, an employer may, with equivalent funds, provide eligible employees with a benefit plan that provides reimbursement for medical expenses. For employees whose conditions of employment are governed by chapter 28B.52 or 41.56 RCW, such benefit plans shall be instituted only by agreement applicable to the members of a bargaining unit. A benefit plan adopted must require, as a condition of participation under the plan, that the employee sign an agreement with the employer. The agreement must include a provision to hold the employer harmless should the United States government find that the employer or the employee is in debt to the United States as a result of the employee not paying income taxes due on the equivalent funds placed into the plan, or as a result of the employer not withholding or deducting a tax, assessment, or other payment on the funds as required under federal law. The agreement must also include a provision that requires an eligible employee to forfeit remuneration under subsection (4) of this section if the employee belongs to a unit that has been designated to participate in the benefit plan permitted under this subsection and the employee refuses to execute the required agreement.

(6) Remuneration or benefits received under this section are not included for the purposes of computing a retirement allowance under a public retirement system in this state.

(7) The state board for community and technical colleges shall adopt uniform rules to carry out the purposes of this section. The rules shall define categories of eligible employees. The categories of

eligible employees are subject to approval by the office of financial management. The rules shall also require that each employer maintain complete and accurate sick leave records for all eligible employees.

(8) Should the legislature revoke a remuneration or benefit granted under this section, an affected employee is not then entitled to receive the benefits as a matter of contractual right. [1997 c 232 s 1.]

Conflict with federal requirements—1997 c 232: "If any part of section 1(5) of this act is found to be in conflict with federal tax laws or rulings or regulations of the federal internal revenue service, the conflicting part of section 1(5) of this act is inoperative solely to the extent of the conflict and such finding shall not affect the remainder of this act." [1997 c 232 s 3.]

RCW 28B.50.600 School district bonds—Redemption of by school district to continue though facility under control of college district board. Whenever a common school board has contracted to redeem general obligation bonds used for the construction or acquisition of facilities which are now to be under the administration, control and occupancy of the college district board, the common school board shall continue to redeem the bonds in accordance with the provisions of the bonds. [1991 c 238 s 60; 1969 ex.s. c 223 s 28B.50.600. Prior: 1967 ex.s. c 8 s 60. Formerly RCW 28.85.600.]

RCW 28B.50.601 School district bonds—Redemption—Facilities under administration of college district board. If a school board has contracted to redeem general obligation bonds used for the construction or acquisition of facilities which are now to be under the administration, control, and occupancy of the college district board, the school board shall continue to redeem the bonds in accordance with the provisions of the bonds. [1991 c 238 s 138.]

RCW 28B.50.740 School district bonds—Those issued for community and technical college facilities not considered indebtedness under statutory limitations on. Notwithstanding any other statutory provision relating to indebtedness of school districts, bonds heretofore issued by any common school district for the purpose of providing funds for community and technical college facilities shall not be considered as indebtedness in determining the maximum allowable indebtedness under any statutory limitation of indebtedness when the sum of all indebtedness therein does not exceed the maximum constitutional allowable indebtedness applied to the value of the taxable property contained in such school district: PROVIDED, That nothing contained herein shall be construed to affect the distribution of state funds under any applicable distribution formula. [1991 c 238 s 61; 1969 ex.s. c 223 s 28B.50.740. Prior: 1967 ex.s. c 8 s 74. Formerly RCW 28.85.740.]

Limitation of indebtedness prescribed: RCW 39.36.020.

RCW 28B.50.785 Publication of transferable college-level courses—Course lists for one-year academic completion certificates and transferable degrees.

(1) (a) Community and technical colleges must identify and publish in their admissions materials the college-level courses that are recognized by all four-year institutions of higher education as transferable to the four-year institutions of higher education. Publication of the list of courses must be easily identified and accessible on the college's website.

(b) If a four-year institution of higher education does not require courses of majors for transfer, the community and technical colleges must identify and publish the transfer policy of the institution in their admissions materials and make the transfer policy of the institution easily identifiable on the college's website.

(2) Community and technical colleges must create a list of courses that satisfy the basic requirements, distribution requirements, and approved electives for:

(a) A one-year academic completion certificate as provided for under RCW 28B.10.696; and

(b) A transferable associate of arts or sciences degree as provided for under RCW 28B.10.696.

(3) To the extent possible, each community and technical college must develop links between the lists in subsections (1) and (2) of this section and its list of courses, and develop methods to encourage students to check the lists in subsections (1) and (2) of this section when the students are registering for courses. [2011 1st sp.s. c 10 s 12.]

Findings—Intent—Short title—2011 1st sp.s. c 10: See notes following RCW 28B.15.031.

RCW 28B.50.789 Online course descriptions—Required materials' cost information—Reports. (1) To the maximum extent practicable, but no later than the first full quarter after a community or technical college has implemented the ctcLink system, a community or technical college shall provide the following information to students during registration by displaying it in the online course description or by providing a link that connects to the bookstore's website or other website where students can search and view:

(a) The cost of any required textbook or other course materials;

(b) Whether a course uses open educational resources; and

(c) Whether a course uses low-cost required instructional materials. For the purposes of this subsection, "low-cost" means the required instructional materials equal fifty dollars or less.

(2) If a course's required textbooks and course materials are not determined prior to registration due to an unassigned faculty member, the textbooks' and course materials' cost must be provided as soon as feasible after a faculty member is assigned.

(3) Each community and technical college shall report to the college board which courses provided textbooks' and course materials' costs to students during registration, and what percent of total classes this equaled. The college board shall report the information

to the legislature in accordance with RCW 43.01.036 by January 1st of each biennium, beginning with January 1, 2019. [2020 c 104 s 1; 2017 c 98 s 2.]

Intent—2017 c 98: "The legislature recognizes the high cost of textbooks and the burden this can create for students. The legislature also recognizes the work of the state board for community and technical colleges in creating the open course library, in which free textbooks and other course materials are available for eighty-one of the highest enrolled courses in the community and technical college system. The student public interest research groups completed a cost analysis of the open course library and found that students who take open course library courses save ninety-six dollars on average per course over a traditional textbook. Therefore, it is the legislature's intent to incentivize faculty to use resources available on the open course library by informing students of a textbook's cost when they register for a class." [2017 c 98 s 1.]

RCW 28B.50.795 Bachelor of science in nursing program—University Center of North Puget Sound. (1) Although Everett Community College offers an associate degree nursing program that graduates approximately seventy to ninety students per year, the University Center does not offer a bachelor of science in nursing. Some graduates of the Everett Community College program are able to articulate to the bachelor of science in nursing program offered by the University of Washington-Bothell at its Bothell campus or in Mt. Vernon but current capacity is not sufficient for all of the graduates who are both interested and qualified.

(2) Despite recent growth in nursing education capacity, shortages still persist for registered nurses. According to a June 2007 study by the Washington, Wyoming, Alaska, Montana, and Idaho center for health workforce studies, the average age of Washington's registered nurses was forty-eight years. More than a third were fifty-five years of age or older. Consequently, the high rate of registered nurses retiring from nursing practice over the next two decades will significantly reduce the supply. This reduction comes at the same time as the state's population grows and ages. The registered nurse education capacity in Washington has a large impact on the supply of registered nurses in the state. If the rate of graduation in registered nursing does not increase, projections show that supply in Washington will begin to decline by 2015. In contrast, if graduation rates increased by four hundred per year, the supply of registered nurses would meet estimated demand by the year 2021.

(3) Subject to specific funding to support up to fifty full-time equivalent students in a bachelor of nursing program, the University Center of North Puget Sound, in partnership with the University of Washington-Bothell, shall offer a bachelor of science in nursing program with capacity for up to fifty full-time students. [2011 c 321 s 2; 2010 1st sp.s. c 25 s 1.]

Contingent effective date—2011 c 321: See note following RCW 28B.30.515.

Effective date—2010 1st sp.s. c 25: "This act is necessary for the immediate preservation of the public peace, health, or safety, or

support of the state government and its existing public institutions, and takes effect July 1, 2010." [2010 1st sp.s. c 25 s 2.]

RCW 28B.50.800 Practical nursing credential—Online curriculum and pathway. Subject to the availability of amounts appropriated for this specific purpose, the community and technical colleges shall design and implement an online curriculum and pathway to earn a licensed practical nursing credential. The college board shall select two colleges, one on either side of the crest of the Cascade mountains, to design and implement the online curriculum. The curriculum may include use of a mobile skills lab or other innovative approaches to ensure access to training opportunities for rural students. [2023 c 126 s 3.]

Findings—2023 c 126: "The legislature finds that nurses are essential to the operation of the state's health care system. Further, the legislature finds that the gap between demand for nurses and an available workforce continues to widen. Nursing professions continue to rank among the highest demand occupations in the state with the number of unfilled openings ranking near the top of all professional categories each month. The legislature finds that the need for nurses is particularly acute in rural hospital and clinical settings as well as long-term care facilities. Further, the legislature finds that there is a need to expand nursing credential opportunities through the expansion of existing postsecondary programs, the provision of adequate compensation for nurse educators, the creation of new and innovative approaches to health care credentials, the creation and expansion of proven pathways to health care careers within the K-12 system, and the streamlining of administrative requirements in the approval of new, high quality nursing education opportunities." [2023 c 126 s 1.]

RCW 28B.50.805 Programs that support science, technology, engineering, and mathematics programs or career and technical education programs—Selection of colleges—Development of courses leading to a high-demand applied baccalaureate degree. Subject to the availability of amounts appropriated for this specific purpose and in addition to other applied baccalaureate degree programs and pursuant to the criteria in RCW 28B.50.810, the college board shall select community or technical colleges to develop and offer two programs that support the continuation of high quality science, technology, engineering, and mathematics programs or career and technical education programs offered to students in kindergarten through twelfth grade who are prepared and aspire to continue in these high-demand areas in college and the workforce. Subject to available funding, a college selected under this section may develop the curriculum for and design and deliver courses leading to a high-demand applied baccalaureate degree. [2013 c 55 s 2.]

RCW 28B.50.810 Applied baccalaureate degree programs. (1) The college board may select community or technical colleges to develop and offer programs of study leading to applied baccalaureate degrees. Colleges may submit applications to the college board. The college

board shall review the applications and select the colleges using objective criteria, including, but not limited to:

(a) The college demonstrates the capacity to make a long-term commitment of resources to build and sustain a high quality program;

(b) The college has or can readily engage faculty appropriately qualified to develop and deliver a high quality curriculum at the baccalaureate level;

(c) The college can demonstrate demand for the proposed program from a sufficient number of students within its service area to make the program cost-effective and feasible to operate;

(d) The college can demonstrate that employers demand the level of technical training proposed within the program, making it cost-effective for students to seek the degree; and

(e) The proposed program fills a gap in options available for students because it is not offered by a public four-year institution of higher education in the college's geographic area.

(2) A college selected under this section may develop the curriculum for and design and deliver courses leading to an applied baccalaureate degree. However, degree programs developed under this section are subject to approval by the college board under RCW 28B.50.090. [2012 c 229 s 816; 2010 c 245 s 3; 2008 c 166 s 2; 2005 c 258 s 6.]

Effective date—2012 c 229 ss 101, 117, 401, 402, 501 through 594, 601 through 609, 701 through 708, 801 through 821, 902, and 904: See note following RCW 28B.77.005.

Findings—Expand on demand—System design plan endorsed—2010 c 245: See note following RCW 28B.50.020.

Findings—Intent—2008 c 166: "The legislature finds that the six colleges that developed proposals for the applied baccalaureate degree pilot programs exhibited exemplary work preparing proposals. The proposals were consistent with the legislature's vision for expanding bachelor's degree access and with the principals and criteria developed by the college board. The legislature recognizes that the authorization for the pilots was limited in number and therefore not all the proposals were able to be approved. The legislature values the work that has been done and intends to provide authority for additional pilots so as not to lose the good work that has been done." [2008 c 166 s 1.]

Findings—Intent—2005 c 258: See note following RCW 28B.45.014.

RCW 28B.50.815 Associate degree education for incarcerated adults. The college board may authorize any board of trustees within the system to promote and conduct associate degree education and training of incarcerated adults through new or expanded partnerships between the community and technical colleges and the department of corrections. [2017 c 120 s 2.]

Findings—Intent—2021 c 200; 2019 c 397; 2017 c 120: "(1) The legislature finds that incarceration is both a rural and urban issue in the state. According to one recent report, the highest rates of prison admissions are in rural counties. In addition, since 1980, the

number of women in prison has increased more than eight hundred percent. Additionally, people of color are overrepresented in the prison system. The legislature finds that studies clearly and consistently demonstrate that postsecondary education in prisons improves safety in facilities, and incarcerated adults who obtain postsecondary education and training are more likely to be employed following release, which leads to a significant reduction in recidivism rates, improvements in public safety, and a major return on investment. The legislature finds that reducing recidivism decreases the financial burden to taxpayers and the emotional burden of victims.

(2) The legislature finds that research indicates that postsecondary education and training is an effective evidence-based practice for reducing recidivism. An analysis commissioned by the United States department of justice determined that adults who received an education while incarcerated were forty-three percent less likely to recidivate.

(3) Ninety-five percent of incarcerated adults ultimately return to their communities to obtain employment and contribute to society. The legislature finds that according to the bureau of labor statistics, unemployment rates for people with only a high school education are twice that of those with an associate degree. Research has shown that adults who participated in education programs while incarcerated were thirteen percent more likely to be employed.

(4) The legislature further finds that correctional education is cost-effective. A 2014 study by the Washington state institute for public policy estimated that, based on a review of national research literature and cost-benefit analysis, there is a return on investment of twenty dollars for every dollar invested in correctional education.

(5) It is the intent of the legislature to enhance public safety, including the safety of prison workers as findings show that violence rates are reduced in institutions where there are educational programs, to reduce crime, and to increase employment rates in a cost-effective manner by exploring benefits and costs associated with providing postsecondary education degree opportunities and training to incarcerated adults through expanded partnerships between postsecondary institutions, nonprofit entities and community-based postsecondary education programs, and the department of corrections.

(6) It is the intent of the legislature to support exploring the use of secure internet connections expressly for the purposes of furthering postsecondary education degree opportunities and training of incarcerated adults, including providing assistance to incarcerated adults with completing financial aid materials. The legislature intends for the department to be able to provide complete assurance that all internet connections used by incarcerated individuals are secure.

(7) It is the intent of the legislature to support expanded access and opportunities to postsecondary degree and certificate education programs for persons of color by setting goals and partnering with nonprofit entities and community-based postsecondary education programs with historical evidence of providing education programs for people of color.

(8) It is also the intent of the legislature, by requiring the study under RCW 72.09.469, to examine the effects of providing postsecondary education while incarcerated on enrollment in the postsecondary education system postrelease." [2021 c 200 s 1; 2019 c 397 s 1; 2017 c 120 s 1.]

RCW 28B.50.820 Baccalaureate degree programs—Agreements with state universities, regional universities, or the state college. (1) One strategy to accomplish expansion of baccalaureate capacity in underserved regions of the state is to allocate state funds for student enrollment to a community and technical college and authorize the college to enter into agreements with a state university, regional university, or state college as defined in RCW 28B.10.016, to offer baccalaureate degree programs.

(2) Subject to legislative appropriation for the purpose described in this section, the college board shall select and allocate funds to three community or technical colleges for the purpose of entering into an agreement with one or more state universities, regional universities, or the state college to offer baccalaureate degree programs on the college campus.

(3) The college board shall select the community or technical college based on analysis of gaps in service delivery, capacity, and student and employer demand for programs. Before taking effect, the agreement under this section must be approved by the student achievement council.

(4) Students enrolled in programs under this section are considered students of the state university, regional university, or state college for all purposes including tuition and reporting of state-funded enrollments. [2017 c 52 s 11; 2012 c 229 s 538; 2005 c 258 s 12.]

Effective date—2012 c 229 ss 101, 117, 401, 402, 501 through 594, 601 through 609, 701 through 708, 801 through 821, 902, and 904: See note following RCW 28B.77.005.

Findings—Intent—2005 c 258: See note following RCW 28B.45.014.

RCW 28B.50.825 Bachelor of science degree in computer science.

(1) Subject to approval by the college board, community colleges and technical colleges are authorized to offer bachelor of science degrees in computer science.

(2) Community colleges and technical colleges may develop the curriculum for and design and deliver courses leading to a bachelor of science degree in computer science.

(3) Degree programs developed under this section are subject to approval by the college board under RCW 28B.50.090 before a college may enroll students in upper-division courses.

(4)(a) Colleges may submit an application to the college board. The college board shall review the applications and select the colleges using objective criteria including, but not limited to:

(i) The college demonstrates the capacity to make a long-term commitment of resources to build and sustain a high quality program;

(ii) The college has or can readily engage faculty appropriately qualified to develop and deliver a high quality curriculum at the baccalaureate level;

(iii) The college can demonstrate demand for the proposed program from a sufficient number of students within its service area to make the program cost-effective and feasible to operate;

(iv) The college can demonstrate that employers demand the level of technical training proposed within the program, making it cost-effective for students to seek the degree; and

(v) The proposed program fills a gap in options available for students because it is not offered by a public four-year institution of higher education in the college's geographic area or if there is a shortage of programs demanded by industry and workforce.

(b) Applications may not be submitted earlier than December 1, 2021.

(5) A community college offering a bachelor of science degree in computer science on July 25, 2021, is exempt from the requirements of subsection (4) of this section. [2021 c 147 s 2; 2016 sp.s. c 33 s 1.]

Findings—2021 c 147: "The legislature finds it essential that Washington students, especially low-income students and students of color, have the necessary credentials to secure the high-demand jobs of the future. Washington is fortunate to be home to a large, and growing, technology sector. The technology sector in Washington currently has more than 24,000 job openings, most of which require a four-year bachelor of science degree in computer science. The legislature also finds that the state imported four times as many computer science graduates than it produced in state. The legislature also finds that the state can do a better job of training Washington residents to secure these living wage jobs of the future. Additionally, of the 1,883 computer science degrees awarded in Washington during the 2018-19 school year, only 3.8 percent were awarded to African American students, 5.6 percent to Hispanic students, and less than 1 percent to Native Americans. The legislature further finds that Washington's competitiveness in the global economy requires the state to ensure companies are able to hire a qualified workforce of Washington residents. To achieve the goals set forth in the workforce education investment act, specifically 70 percent postsecondary credential attainment, the legislature finds that we need to expand access to the high-demand field of computer science, especially to students of color." [2021 c 147 s 1.]

RCW 28B.50.835 Exceptional faculty awards—Intent. The legislature recognizes that quality in the state's community and technical colleges would be strengthened by additional partnerships between citizens and the institutions. The legislature intends to foster these partnerships by creating a matching grant program to assist public community and technical colleges in creating endowments for funding exceptional faculty awards. [1991 c 238 s 62; 1990 c 29 s 1.]

Severability—1990 c 29: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1990 c 29 s 8.]

RCW 28B.50.8351 Exceptional faculty awards—"Foundation" defined. For purposes of RCW 28B.50.835 through 28B.50.843 "foundation" means a private nonprofit corporation that: (1) Is registered under Title 24 RCW and qualified as a tax-exempt entity under section 501(c)(3) of the federal internal revenue code; (2) exists solely for the benefit of one or more community or technical

colleges in this state; and (3) is registered with the attorney general's office under the charitable trust act, chapter 11.110 RCW. [1993 c 87 s 3.]

RCW 28B.50.837 Exceptional faculty awards—Established—Community and technical college faculty awards trust fund. (1) The Washington community and technical college exceptional faculty awards program is established. The program shall be administered by the college board. The college faculty awards trust fund hereby created shall be administered by the state treasurer.

(2) Funds appropriated by the legislature for the community and technical college exceptional faculty awards program shall be deposited in the college faculty awards trust fund. At the request of the college board, the treasurer shall release the state matching funds to the local endowment fund of the college or its foundation. No appropriation is necessary for the expenditure of moneys from the fund. Expenditures from the fund may be used solely for the exceptional faculty awards program. During the 2011-2013 fiscal biennium, the legislature may transfer from the college faculty awards trust fund to the state general fund such amounts as reflect the excess fund balance in the account. RCW 28B.50.839 Exceptional faculty awards—Guidelines—Matching funds—Donations—Disbursements. (1) In consultation with eligible community and technical colleges, the college board shall set priorities and guidelines for the program.

(2) All community and technical colleges and their foundations shall be eligible for matching trust funds. When they can match the state funds with equal cash donations from private sources, institutions and foundations may apply to the college board for grants from the fund in ten thousand dollar increments up to a maximum set by

the college board. These donations shall be made specifically to the exceptional faculty awards program and deposited by the institution or foundation in a local endowment fund or a foundation's fund. Otherwise unrestricted gifts may be deposited in the endowment fund by the institution or foundation.

(3) Once sufficient private donations are received by the institution or foundation, the institution shall inform the college board and request state matching funds. The college board shall evaluate the request for state matching funds based on program priorities and guidelines. The college board may ask the state treasurer to release the state matching funds to a local endowment fund established by the institution or a foundation's fund established by a foundation for each faculty award created.

(4) A college, by action of its board of trustees, may transfer those exceptional faculty award funds accumulated in its local endowment fund between July 1, 1991, and July 25, 1993, to its foundation's local endowment fund established as provided in subsection (2) of this section. [2003 c 129 s 1; 1994 c 234 s 3; 1993 c 87 s 2; 1991 c 238 s 64; 1990 c 29 s 3.]

RCW 28B.50.841 Exceptional faculty awards—Name of award—Duties of institution—Use of endowment proceeds. (1) The faculty awards are the property of the institution and may be named in honor of a donor, benefactor, or honoree of the institution, at the option of the institution. The institution shall designate the use of the award to individuals, groups, or for the improvement of faculty as a whole. The designation shall be made or renewed annually.

(2) The institution is responsible for soliciting private donations, investing and maintaining its endowment funds, administering the faculty awards, and reporting on the program to the governor, the college board, and the legislature, upon request. The institution may augment its endowment fund with additional unrestricted private donations. The principal of the invested endowment fund shall not be invaded.

(3) The proceeds from the endowment fund shall be used to pay expenses for faculty awards, which may include faculty development activities, in-service training, temporary substitute or replacement costs directly associated with faculty development programs, conferences, travel, publication and dissemination of exemplary projects; to supplement the salary of the holder or holders of a faculty award; or to pay expenses associated with the holder's program area. Funds from this program shall not be used to supplant existing faculty development funds. [2000 c 127 s 1; 1991 c 238 s 65; 1990 c 29 s 4.]

RCW 28B.50.873 Reduction in force of tenured or probationary faculty members due to financial emergency—Conditions—Procedure—Rights. The college board may declare a financial emergency under the following conditions: (1) Reduction of allotments by the governor pursuant to *RCW 43.88.110(2), or (2) reduction by the legislature from one biennium to the next or within a biennium of appropriated funds based on constant dollars using the implicit price deflator. When a district board of trustees determines that a reduction in force of tenured or probationary faculty members may be necessary due to financial emergency as declared by the state board, written notice of the reduction in force and separation from employment shall be given the faculty members so affected by the president or district president as the case may be. Said notice shall clearly indicate that separation is not due to the job performance of the employee and hence is without prejudice to such employee and need only state in addition the basis for the reduction in force as one or more of the reasons enumerated in subsections (1) and (2) of this section.

Said tenured or probationary faculty members will have a right to request a formal hearing when being dismissed pursuant to subsections (1) and (2) of this section. The only issue to be determined shall be

whether under the applicable policies, rules or collective bargaining agreement the particular faculty member or members advised of severance are the proper ones to be terminated. Said hearing shall be initiated by filing a written request therefor with the president or district president, as the case may be, within ten days after issuance of such notice. At such formal hearing the tenure review committee provided for in RCW 28B.50.863 may observe the formal hearing procedure and after the conclusion of such hearing offer its recommended decision for consideration by the hearing officer. Failure to timely request such a hearing shall cause separation from service of such faculty members so notified on the effective date as stated in the notice, regardless of the duration of any individual employment contract.

The hearing required by this section shall be an adjudicative proceeding pursuant to chapter 34.05 RCW, the Administrative Procedure Act, conducted by a hearing officer appointed by the board of trustees and shall be concluded by the hearing officer within sixty days after written notice of the reduction in force has been issued. Ten days written notice of the formal hearing will be given to faculty members who have requested such a hearing by the president or district president as the case may be. The hearing officer within ten days after conclusion of such formal hearing shall prepare findings, conclusions of law and a recommended decision which shall be forwarded to the board of trustees for its final action thereon. Any such determination by the hearing officer under this section shall not be subject to further tenure review committee action as otherwise provided in this chapter.

Notwithstanding any other provision of this section, at the time of a faculty member or members request for formal hearing said faculty member or members may ask for participation in the choosing of the hearing officer in the manner provided in RCW 28A.405.310(4), said employee therein being a faculty member for the purposes hereof and said board of directors therein being the board of trustees for the purposes hereof: PROVIDED, That where there is more than one faculty member affected by the board of trustees' reduction in force such faculty members requesting hearing must act collectively in making such request: PROVIDED FURTHER, That costs incurred for the services and expenses of such hearing officer shall be shared equally by the community or technical college and the faculty member or faculty members requesting hearing.

When more than one faculty member is notified of termination because of a reduction in force as provided in this section, hearings for all such faculty members requesting formal hearing shall be consolidated and only one such hearing for the affected faculty members shall be held, and such consolidated hearing shall be concluded within the time frame set forth herein.

Separation from service without prejudice after formal hearing under the provisions of this section shall become effective upon final action by the board of trustees.

It is the intent of the legislature by enactment of this section and in accordance with RCW 28B.52.035, to modify any collective bargaining agreements in effect, or any conflicting board policies or rules, so that any reductions in force which take place after December 21, 1981, whether in progress or to be initiated, will comply solely with the provisions of this section: PROVIDED, That any applicable policies, rules, or provisions contained in a collective bargaining

agreement related to lay-off units, seniority and reemployment rights shall not be affected by the provisions of this paragraph.

Nothing in this section shall be construed to affect the right of the board of trustees or its designated appointing authority not to renew a probationary faculty appointment pursuant to RCW 28B.50.857. [1991 c 238 s 72; 1990 c 33 s 559; 1989 c 175 s 81; 1981 2nd ex.s. c 13 s 1.]

RCW 28B.50.920 Diversity, equity, and inclusion—Strategic plans—Student-based organizations—Outreach programs—Model faculty diversity programs. (1) Beginning July 30, 2022, all community and technical colleges must submit, on a biennial basis, strategic plans to the state board for community and technical colleges for achieving diversity, equity, and inclusion of all races on their campuses.

(2) Colleges must create their strategic plans using an inclusive process of stakeholders including, but not limited to, classified staff, faculty, administrative exempt staff, students, and community organizations. Colleges are encouraged to use campus climate surveys to develop and update strategic plans for diversity, equity, and inclusion of all races.

(3) In addition to planning, each community and technical college shall include in its diversity program opportunities for students from historically marginalized communities to form student-based organizations, and to use community-based organizations, that permit students to work together to mentor and assist one another in navigating the educational system and to access trained mentors using evidence-based mentoring strategies.

(4) Each community and technical college shall establish a culturally appropriate outreach program. The outreach program may include communities of color, students with disabilities, neurodiverse communities, and low-income communities and be designed to assist potential students to understand the opportunities available in the community and technical college system. The outreach program may assist students with navigating the student aid system. Outreach programs may include partnerships with appropriate community-based organizations and use research and supports from the student achievement council.

(5) The state board for community and technical colleges shall develop a model faculty diversity program designed to provide for the retention and recruitment of faculty from all racial, ethnic, and

cultural backgrounds. The faculty diversity program must be based on proven practices in diversity hiring processes.

(6) Each community and technical college shall conspicuously post on its website and include in the strategic plans, programs, and reports definitions for key terms including: Diversity, equity, inclusion, culturally competent, culturally appropriate, historically marginalized communities, communities of color, low-income communities, and community organizations. [2021 c 272 s 3.]

Intent—2021 c 272: "The legislature recognizes that student completion rates for workforce training certification and degree programs at community and technical colleges are far lower than desirable to ensure that students may utilize the opportunities of postsecondary education to lift themselves and their families out of poverty and to meet our state's student achievement council road map goals, including for 70 percent of Washington residents to have a postsecondary certification or degree to meet workforce needs. The legislature recognizes that first-generation college-attending students, students with disabilities, and underrepresented minority students face far greater obstacles to apply, remain in school, and complete programs. This disparate impact greatly affects our state's commitment to equity.

The legislature recognizes that offering tuition financial support to first-generation and underrepresented minority students is necessary for students to enroll and attend college but must also be accompanied by proven supports for them to complete their degrees or workforce training programs.

The legislature recognizes that there are mentorship and advising programs based on strong evidence that have been proven to be successful in greatly increasing retention and degree or workforce training completion rates for first-generation students, underrepresented minority students, students with disabilities, and for all students at community and technical colleges. It is the legislature's intent that successful programs such as guided pathways be implemented at all community and technical colleges with the goal of doubling completion rates (as measured by completion in six years) for students in the next eight years. To accomplish this goal, the legislature intends to achieve full implementation of research-based programs to improve student outcomes, such as guided pathways. The legislature affirms that all students receiving Washington college grants, college bound scholarships, or federal Pell grants should receive the supports, including mentoring, that have been proven to increase completion rates.

The legislature further finds that research establishes that students from underrepresented minorities are far more likely to complete degrees or workforce training certification programs if the faculty and staff of the college reflect the diversity of the student body. Therefore, the legislature intends for the state's community and technical colleges to develop and implement plans to increase faculty and staff diversity." [2021 c 272 s 1.]

Findings—2021 c 272: "The legislature finds that there is a need to expand investments in community and technical colleges for the purpose of guaranteeing both equitable access and educational success for all residents of the state, particularly for students from communities of color and low-income communities. The legislature finds

further that equality of opportunity for all students requires investments to support services that are critical to: The success of students of color and low-income students; provide systemwide equity initiatives intended to make community and technical college campuses welcoming, benevolent places; overcome the digital divide for all students; and provide qualified and available counseling throughout the community and technical college system. The legislature also finds that a more full-time, stable, fairly compensated, and diverse community and technical college faculty is necessary to enhance student success and to improve the mentoring available for a diverse student body. The legislature also finds that resources for student aid and workforce investment need to be adequate to meet the needs of all students in the state, particularly those from families of color and low-income families." [2021 c 272 s 2.]

Short title—2021 c 272: "This act may be known and cited as the our colleges our future act of 2021." [2021 c 272 s 11.]

Pathways must align course sequences to show clear paths for students, alignment with K-12 and university curriculum, and skill sets needed to enter the workforce;

(b) Dedicated advising and career counseling that helps students make informed program choices and develop completion plans. Advising must be culturally competent and with an emphasis on helping historically underserved, low-income, and students of color navigate their education;

(c) Data analysis of student learning as well as program and service outcomes. Data must be used to inform program development, the creation and further refinement of student pathways, and to provide opportunities for early intervention to help students succeed; and

(d) A student success support infrastructure using programs that the state board for community and technical colleges finds have been effective in closing equity gaps among historically underserved student populations and improve student completion rates. The student success support program must be based on research or documented evidence of success. In tandem with guided pathways implementation, student success support programs may include evidence-based elements such as:

- (i) Equity competent academic advising services;
- (ii) Equity competent career development programming;
- (iii) Clear information regarding financial aid and financial literacy; and

To the extent possible, the institute shall complete a preliminary report that evaluates the effect of the guided pathways model on early student outcomes including, but not limited to, student retention and persistence, college level English and math within the first year, and graduation and transfer rates. The preliminary report must review the implementation of the guided pathways model in Washington and any available evidence of the effectiveness of the guided pathways model. The preliminary report must be submitted by December 15, 2023.

(b) The Washington state institute for public policy shall complete a final report that evaluates the effect of the guided pathways on longer-term student outcomes including, but not limited to, degree completion, time to degree, transfer to four-year institutions, employment, and earnings, to the extent possible. The final report must be submitted by December 15, 2029.

(c) Both the preliminary and final reports must consider differences in outcomes by racial and ethnic subgroups and socioeconomic status. [2023 c 282 s 2; 2021 c 272 s 4.]

(b) "Skill centers" refers to the regional career and technical education partnerships established under chapter 28A.245 RCW.

(5) This section expires July 1, 2030. [2025 c 104 s 2.]

Findings—Intent—2025 c 104: "(1) The legislature finds that students who participate in dual credit programs have higher rates of college enrollment, persistence, and completion. Dual credit programs are an important economic development for Washington because they equip students with the skills needed for high-skill, high-wage employment and continued education in high-demand sectors.

(2) Career and technical education (CTE) dual credit is the most commonly accessed form of dual credit in Washington and has significant potential to improve equitable access to postsecondary pathways for students from all backgrounds. However, it lags behind other course-based dual credit programs in ensuring that students receive a transcribed credit while in high school, and that the credit they earn will transfer to the postsecondary institution of their choice.

(3) Therefore, the legislature intends to extend and expand a pilot program for the purpose of increasing CTE dual credit participation and credential attainment in professional technical programs and receive recommendations on future amendments to state dual credit policies." [2025 c 104 s 1.]
