RCW 43.52.300 Powers and duties of an operating agency. An operating agency formed under RCW 43.52.360 shall have authority:

(1) To generate, produce, transmit, deliver, exchange, purchase or sell electric energy and to enter into contracts for any or all such purposes.

(2) To construct, condemn, purchase, lease, acquire, add to, extend, maintain, improve, operate, develop and regulate plants, works

and facilities for the generation and/or transmission of electric energy, either within or without the state of Washington, and to take, condemn, purchase, lease and acquire any real or personal, public or private property, franchise and property rights, including but not limited to state, county and school lands and properties, for any of the purposes herein set forth and for any facilities or works necessary or convenient for use in the construction, maintenance or operation of any such works, plants and facilities; provided that an operating agency shall not be authorized to acquire by condemnation any plants, works and facilities owned and operated by any city or district, or by a privately owned public utility. An operating agency shall be authorized to contract for and to acquire by lease or purchase from the United States or any of its agencies, any plants, works or facilities for the generation and transmission of electricity and any real or personal property necessary or convenient for use in connection therewith.

(3) To negotiate and enter into contracts with the United States or any of its agencies, with any state or its agencies, with Canada or its agencies or with any district or city of this state, for the lease, purchase, construction, extension, betterment, acquisition, operation and maintenance of all or any part of any electric generating and transmission plants and reservoirs, works and facilities or rights necessary thereto, either within or without the state of Washington, and for the marketing of the energy produced therefrom. Such negotiations or contracts shall be carried on and concluded with due regard to the position and laws of the United States in respect to international agreements.

(4) To negotiate and enter into contracts for the purchase, sale, exchange, transmission or use of electric energy or falling water with any person, firm or corporation, including political subdivisions and agencies of any state, of Canada, or of the United States, at fair and nondiscriminating rates.

(6) To establish rates for electric energy sold or transmitted by the operating agency. When any revenue bonds or warrants are outstanding the operating agency shall have the power and shall be required to establish and maintain and collect rates or charges for electric energy, falling water and other services sold, furnished or supplied by the operating agency which shall be fair and nondiscriminatory and adequate to provide revenues sufficient for the payment of the principal and interest on such bonds or warrants and all payments which the operating agency is obligated to set aside in any special fund or funds created for such purposes, and for the proper operation and maintenance of the public utility owned by the operating agency and all necessary repairs, replacements and renewals thereof.

(7) To act as agent for the purchase and sale at wholesale of electricity for any city or district whenever requested so to do by such city or district.

(8) To contract for and to construct, operate and maintain fishways, fish protective devices and facilities and hatcheries as

necessary to preserve or compensate for projects operated by the operating agency.

(10) To employ legal, engineering and other professional services and fix the compensation of a managing director and such other employees as the operating agency may deem necessary to carry on its business, and to delegate to such manager or other employees such authority as the operating agency shall determine. Such manager and employees shall be appointed for an indefinite time and be removable at the will of the operating agency.

(11) To study, analyze and make reports concerning the development, utilization and integration of electric generating facilities and requirements within the state and without the state in that region which affects the electric resources of the state.

(12) To acquire any land bearing coal, uranium, geothermal, or other energy resources, within or without the state, or any rights therein, for the purpose of assuring a long-term, adequate supply of coal, uranium, geothermal, or other energy resources to supply its needs, both actual and prospective, for the generation of power and may make such contracts with respect to the extraction, sale, or disposal of such energy resources that it deems proper.

(13) To participate and enter into agreements in accordance with RCW 54.44.020. Joint operating agencies that operate electric generating facilities or distribution systems shall have power and authority to participate and enter into agreements with each other and with electrical companies which are subject to the jurisdiction of the Washington utilities and transportation commission or the regulatory commission of any other state, and with rural electric cooperatives, including generation and transmission cooperatives, with any other person or entities for the development, use, and ownership of any type of electric generating plants and facilities including, but not limited to, nuclear and other thermal power generating plants and facilities, renewable energy facilities, energy storage facilities, and transmission facilities including, but not limited to, related transmission facilities, hereinafter called "common facilities," and for the planning, financing, acquisition, construction, operation and maintenance thereof. Agreements under this section include, but are not limited to, joint venture agreements and limited liability company agreements. It shall be provided in such agreements that each joint operating agency shall own a percentage of any common facility at least equal to the percentage of the money furnished or the value of property supplied by it for the acquisition and construction thereof and shall own and control a like percentage of the electrical output thereof. [2025 c 279 s 4; 1977 ex.s. c 184 s 4; 1975 1st ex.s. c 37 s 1; 1965 c 8 s 43.52.300. Prior: 1955 c 258 s 1; 1953 c 281 s 5.]

RCW 43.52.3411 Revenue bonds or warrants. For the purposes provided for in this chapter, an operating agency shall have power to issue revenue bonds or warrants payable from the revenues of the

utility properties operated by it. Whenever the board of a joint operating agency shall deem it advisable to issue bonds or warrants to engage in conservation activities or to construct or acquire any public utility or any works, plants or facilities or any additions or betterments thereto or extensions thereof it shall provide therefor by resolution, which shall specify and adopt the system or plan proposed and declare the estimated cost thereof as near as may be. Such cost may include funds for working capital, for payment of expenses incurred in the conservation activities or the acquisition or construction of the utility and for the repayment of advances made to the operating agency by any public utility district or city. Except as otherwise provided in RCW 43.52.343, all the provisions of law as now or hereafter in effect relating to revenue bonds or warrants of public utility districts shall apply to revenue bonds or warrants issued by the joint operating agency including, without limitation, provisions relating to: The creation of special funds and the pledging of revenues thereto; the time and place of payment of such bonds or warrants and the interest rate or rates thereon; the covenants that may be contained therein and the effect thereof; the execution, issuance, sale, funding, or refunding, redemption and registration of such bonds or warrants; and the status thereof as negotiable instruments, as legal securities for deposits of public moneys and as legal investments for trustees and other fiduciaries and for savings and loan associations, banks and insurance companies doing business in this state. However, for revenue bonds or warrants issued by an operating agency, the provisions under RCW 54.24.030 relating to additional or alternate methods for payment may be made a part of the contract with the owners of any revenue bonds or warrants of an operating agency. The board may authorize the managing director or the treasurer of the operating agency to sell revenue bonds or warrants maturing one year or less from the date of issuance, and to fix the interest rate or rates on such revenue bonds or warrants with such restrictions as the board shall prescribe. Such bonds and warrants may be in any form, including bearer bonds or bearer warrants, or registered bonds or registered warrants as provided in RCW 39.46.030. Such bonds and warrants may also be issued and sold in accordance with chapter 39.46 RCW. [1987 c 376 s 10; 1983 c 167 s 116; 1981 1st ex.s. c 1 s 2; 1965 c 8 s 43.52.3411. Prior: 1957 c 295 s 6.]

Liberal construction—Severability—1983 c 167: See RCW 39.46.010 and note following.

Severability—1981 1st ex.s. c 1: See note following RCW 43.52.250.

RCW 43.52.343 Revenue bonds or warrants—Sale by negotiation or advertisement and bid. All bonds issued by an operating agency shall be sold and delivered in such manner, at such rate or rates of interest and for such price or prices and at such time or times as the board shall deem in the best interests of the operating agency, whether by negotiation or to the highest and best bidder after such advertising for bids as the board of the operating agency may deem proper: PROVIDED, That the board may reject any and all bids so submitted and thereafter sell such bonds so advertised under such terms and conditions as it may deem most advantageous to its own

interests. [1981 1st ex.s. c 1 s 3; 1965 c 8 s 43.52.343. Prior: 1957 c 295 s 7; 1955 c 258 s 10.]

Severability—1981 1st ex.s. c 1: See note following RCW 43.52.250.

RCW 43.52.350 Operating agencies to provide fishways, facilities and hatcheries—Contracts. An operating agency shall, at the time of the construction of any dam or obstruction, construct and shall thereafter maintain and operate such fishways, fish protective facilities and hatcheries as the director of fish and wildlife finds necessary to permit anadromous fish to pass any dam or other obstruction operated by the operating agency or to replace fisheries damaged or destroyed by such dam or obstruction and an operating agency is further authorized to enter into contracts with the department of fish and wildlife to provide for the construction and/or operation of such fishways, facilities and hatcheries. [1994 c 264 s 24; 1988 c 36 s 18; 1977 ex.s. c 184 s 5; 1965 c 8 s 43.52.350. Prior: 1953 c 281 s 11.]

RCW 43.52.360 Operating agency—Formation—Additional projects—Appeals—Membership, withdrawal—Dissolution. Any two or more cities or public utility districts or combinations thereof may form an operating agency (herein sometimes called a joint operating agency) for the purpose of acquiring, constructing, operating and owning plants, systems and other facilities and extensions thereof, for the generation and/or transmission of electric energy and power. Each such agency shall be a municipal corporation of the state of Washington with the right to sue and be sued in its own name.

Application for the formation of an operating agency shall be made to the director of the department of ecology (herein sometimes referred to as the director) after the adoption of a resolution by the legislative body of each city or public utility district to be initial members thereof authorizing said city or district to participate. Such application shall set forth (1) the name and address of each participant, together with a certified copy of the resolution authorizing its participation; (2) a general description of the project and the principal project works, including dams, reservoirs, power houses and transmission lines; (3) the general location of the project and, if a hydroelectric project, the name of the stream on which such proposed project is to be located; (4) if the project is for the generation of electricity, the proposed use or market for the power to be developed; (5) a general statement of the electric loads and resources of each of the participants; (6) a statement of the proposed method of financing the preliminary engineering and other studies and the participation therein by each of the participants.

Within ten days after such application is filed with the director of the department of ecology notice thereof shall be published by the director once a week for four consecutive weeks in a newspaper of general circulation in the county or counties in which such project is to be located, setting forth the names of the participants and the general nature, extent and location of the project. Any public utility wishing to do so may object to such application by filing an objection, setting forth the reasons therefor, with the director of

the department of ecology not later than ten days after the date of last publication of such notice.

Within ninety days after the date of last publication the director shall either make findings thereon or have instituted a hearing thereon. In the event the director has neither made findings nor instituted a hearing within ninety days of the date of last publication, or if such hearing is instituted within such time but no findings are made within one hundred and twenty days of the date of such last publication, the application shall be deemed to have been approved and the operating agency established. If it shall appear (a) that the statements set forth in said application are substantially correct; (b) that the contemplated project is such as is adaptable to the needs, both actual and prospective, of the participants and such other public utilities as indicate a good faith intention by contract or by letter of intent to participate in the use of such project; (c) that no objection to the formation of such operating agency has been filed by any other public utility which prior to and at the time of the filing of the application for such operating agency had on file a permit or license from an agency of the state or an agency of the United States, whichever has primary jurisdiction, for the construction of such project; (d) that adequate provision will be made for financing the preliminary engineering, legal and other costs necessary thereto; the director shall make findings to that effect and enter an order creating such operating agency, establishing the name thereof and the specific project for the construction and operation for which such operating agency is formed. Such order shall not be construed to constitute a bar to any other public utility proceeding according to law to procure any required governmental permits, licenses or authority, but such order shall establish the competency of the operating agency to proceed according to law to procure such permits, licenses or authority.

No operating agency shall undertake projects or conservation activities in addition to those for which it was formed without the approval of the legislative bodies of a majority of the members thereof. Prior to undertaking any new project for acquisition of an energy resource, a joint operating agency shall prepare a plan which details a least-cost approach for investment in energy resources. The plan shall include an analysis of the costs of developing conservation compared with costs of developing other energy resources and a strategy for implementation of the plan. The plan shall be presented to the energy and utilities committees of the senate and house of representatives for their review and comment. In the event that an operating agency desires to undertake such a hydroelectric project at a site or sites upon which any publicly or privately owned public utility has a license or permit or has a prior application for a license or permit pending with any commission or agency, state or federal, having jurisdiction thereof, application to construct such additional project shall be made to the director of the department of ecology in the same manner, subject to the same requirements and with the same notice as required for an initial agency and project and shall not be constructed until an order authorizing the same shall have been made by the director in the manner provided for such original application.

Any party who has joined in filing the application for, or objections against, the creation of such operating agency and/or the construction of an additional project, and who feels aggrieved by any

order or finding of the director shall have the right to appeal to the superior court in the manner set forth in RCW 43.52.430.

After the formation of an operating agency, any other city or district may become a member thereof upon application to such agency after the adoption of a resolution of its legislative body authorizing said city or district to participate, and with the consent of the operating agency by the affirmative vote of the majority of its members. Any member may withdraw from an operating agency, and thereupon such member shall forfeit any and all rights or interest which it may have in such operating agency or in any of the assets thereof: PROVIDED, That all contractual obligations incurred while a member shall remain in full force and effect. An operating agency may be dissolved by the unanimous agreement of the members, and the members, after making provisions for the payment of all debts and obligations, shall thereupon hold the assets thereof as tenants in common. [1998 c 245 s 68; 1987 c 376 s 11; 1977 ex.s. c 184 s 6; 1965 c 8 s 43.52.360. Prior: 1957 c 295 s 1; 1955 c 258 s 3; 1953 c 281 s 12.]

RCW 43.52.370 Operating agency board of directors—Members, appointment, vote, term, etc.—Rules—Proceedings—Limitation on powers and duties. (1) Except as provided in subsection (2) of this section, the management and control of an operating agency shall be vested in a board of directors, herein sometimes referred to as the board. The legislative body of each member of an operating agency shall appoint a representative who may, at the discretion of the member and regardless of any charter or other provision to the contrary, be an officer or employee of the member, to serve on the board of the operating agency. Each representative shall have one vote and shall have, in addition thereto, one vote for each block of electric energy equal to ten percent of the total energy generated by the agency during the preceding year purchased by the member represented by such representative. Each member may appoint an alternative representative to serve in the absence or disability of its representative. Each representative shall serve at the pleasure of the member. The board of an operating agency shall elect from its members a president, vice president and secretary, who shall serve at the pleasure of the board. The president and secretary shall perform the same duties with respect to the operating agency as are provided by law for the president and secretary, respectively, of public utility districts, and such other duties as may be provided by motion, rule or resolution of the board. The board of an operating agency shall adopt rules for the conduct of its meetings and the carrying out of its business, and adopt an official seal. All proceedings of an operating agency shall be by motion or resolution and shall be recorded in the minute book which shall be a public record. A majority of the board members shall constitute a quorum for the transaction of business. A majority of the votes which the members present are entitled to cast shall be necessary and sufficient to pass any motion or resolution: PROVIDED, That such board members are entitled to cast a majority of the votes of all members of the board. The members of the board of an operating agency may be compensated by such agency as is provided in RCW

43.52.290: PROVIDED, That the compensation to any member shall not exceed five thousand dollars in any year except for board members who are elected to serve on an executive board established under RCW 43.52.374.

(2) If an operating agency is constructing, operating, terminating, or decommissioning a nuclear power plant under a site certification agreement under chapter 80.50 RCW, the powers and duties of the board of directors shall include and are limited to the following:

(a) Final authority on any decision of the operating agency to purchase, acquire, construct, terminate, or decommission any power plants, works, and facilities except that once the board of directors has made a final decision regarding a nuclear power plant, the executive board established under RCW 43.52.374 shall have the authority to make all subsequent decisions regarding the plant and any of its components;

(b) Election of members to, removal from, and establishment of salaries for the elected members of the executive board under RCW 43.52.374(1)(a); and

(c) Selection and appointment of three outside directors as provided in RCW 43.52.374(1)(b).

All other powers and duties of the operating agency, including without limitation authority for all actions subsequent to final decisions by the board of directors, including but not limited to the authority to sell any power plant, works, and facilities are vested in the executive board established under RCW 43.52.374. [1983 1st ex.s. c 3 s 2; 1982 1st ex.s. c 43 s 2; 1981 1st ex.s. c 3 s 1; 1977 ex.s. c 184 s 7; 1965 c 8 s 43.52.370. Prior: 1957 c 295 s 2; 1953 c 281 s 13.]

RCW 43.52.374 Operating agency executive board—Members—Terms—Removal—Rules—Proceedings—Managing director—Civil immunities—Defense and indemnification. (1) With the exception of the powers and duties of the board of directors described in RCW 43.52.370(2), the management and control of an operating agency constructing, operating, terminating, or decommissioning a nuclear power plant under a site certification agreement under chapter 80.50 RCW is vested in an executive board established under this subsection and consisting of eleven members.

(a) Five members of the executive board shall be elected to four-year terms by the board of directors from among the members of the board of directors. The board of directors may provide by rule for the composition of the five members of the executive board elected from among the members of the board of directors so as to reflect the member public utility districts' and cities' participation in the joint operating agency's projects. Members elected to the executive board from the board of directors are ineligible for continued membership on the executive board if they cease to be members of the board of directors. The board of directors may also provide by rule for the removal of a member of the executive board, except for the outside directors. Members of the board of directors may be elected to serve successive terms on the executive board. Members elected to the

executive board from the board of directors shall receive a salary from the operating agency at a rate set by the board of directors.

(b) Six members of the executive board shall be outside directors. Three shall be selected and appointed by the board of directors, and three shall be selected and appointed by the governor and confirmed by the senate. All outside directors shall:

(i) Serve four-year terms on the executive board. However, of the initial members of the executive board, the board of directors and the governor shall each appoint one outside director to serve a two-year term, one outside director to serve a three-year term, and one outside director to serve a four-year term. Thereafter, all outside directors shall be appointed for four-year terms. All outside directors are eligible for reappointment;

(ii) Receive travel expenses on the same basis as the five members elected from the board of directors. The outside directors shall also receive a salary from the operating agency as fixed by the governor;

(iii) Not be an officer or employee of, or in any way affiliated with, the Bonneville power administration or any electric utility conducting business in the states of Washington, Oregon, Idaho, or Montana;

(iv) Not be involved in the financial affairs of the operating agency as an underwriter or financial adviser of the operating agency or any of its members or any of the participants in any of the operating agency's plants; and

(v) Be representative of policymakers in business, finance, or science, or have expertise in the construction or management of such facilities as the operating agency is constructing or operating, or have expertise in the termination, disposition, or liquidation of corporate assets.

(c) The governor may remove outside directors from the executive board for incompetency, misconduct, or malfeasance in office in the same manner as state appointive officers under chapter 43.06 RCW. For purposes of this subsection, misconduct shall include, but not be limited to, nonfeasance and misfeasance.

(2) Nothing in this chapter shall be construed to mean that an operating agency is in any manner an agency of the state. Nothing in this chapter alters or destroys the status of an operating agency as a separate municipal corporation or makes the state liable in any way or to any extent for any preexisting or future debt of the operating agency or any present or future claim against the agency.

(d) Proposals shall be opened so as to avoid disclosure of contents to competing offerors during the process of negotiation. A register of proposals shall be open for public inspection after contract award.

(e) As provided in the request for proposals, invitations shall be sent to all responsible offerors who submit proposals to attend discussions for the purpose of clarification to assure full understanding of, and responsiveness to, the solicitation requirements. Any inquiries and responses thereto shall be confirmed in writing and shall be sent to all offerors. Offerors shall be accorded fair and equal treatment with respect to any opportunity for discussion and revision of proposals, and such revisions may be permitted after submissions and prior to award for the purpose of obtaining best and final offers. In conducting discussions, there shall be no disclosure of any information derived from proposals submitted by competing offerors.

(f) The joint operating agency shall execute a contract with the responsible offeror whose proposal is determined in writing to be the most advantageous to the joint operating agency and the state taking into consideration the requirements set forth in the request for proposals. The contract file shall contain the basis on which the successful offeror is selected. The joint operating agency shall conduct a briefing conference on the selection if requested by an offeror.

(g) The contract may be fixed price or cost-reimbursable, in whole or in part, but not cost-plus-percentage-of-cost.

(h) The joint operating agency shall retain authority and responsibility for inspection, testing, and compliance with applicable

regulations or standards of any state or federal governmental agency.

RCW 43.52.570 Purchase of materials by telephone or written quotation authorized—Procedure. For the awarding of a contract to purchase any item or items of materials, equipment, or supplies in an amount exceeding five thousand dollars but less than seventy-five thousand dollars, exclusive of sales tax, the managing director or a designee may, in lieu of sealed bids, secure telephone and/or written quotations from at least five vendors, where practical, and award contracts for purchase of materials, equipment, or supplies to the lowest responsible bidder. The agency shall establish a procurement roster, which shall consist of suppliers and manufacturers who may supply materials or equipment to the operating agency, and shall provide for solicitations which will equitably distribute opportunity for bids among suppliers and manufacturers on the roster. Immediately after the award is made, the bid quotations obtained shall be recorded and shall be posted or otherwise made available for public inspection and copying pursuant to chapter 42.56 RCW at the office of the operating agency or any other officially designated location. Waiver of the deposit or bid bond required for sealed bids may be authorized by the operating agency in securing the bid quotations. [2005 c 274 s 299; 1987 c 376 s 3.]

RCW 43.52.575 Purchase of materials without competition authorized. When the managing director or a designee determines in writing that it is impracticable to secure competition for required materials, equipment, or supplies, he or she may purchase the materials, equipment, or supplies without competition. The term "impracticable to secure competition" means:

(1) When material, equipment, or supplies can be obtained from only one person or firm (single source of supply); or

(2) When specially designed parts or components are being procured as replacement parts in support of equipment specially designed by the manufacturer. [1987 c 376 s 4.]

RCW 43.52.580 Emergency purchase of materials or work by contract. When the managing director or a designee determines in writing that an emergency endangers the public safety or threatens property damage or that serious financial injury would result if materials, supplies, equipment, or work are not obtained by a certain time, and they cannot be contracted for by that time by means of sealed bids, the managing director or a designee may purchase materials, equipment, or supplies or may order work by contract in any amount necessary, after having taken precautions to secure a responsive proposal at the lowest price practicable under the circumstances.

For the purposes of this section the term "serious financial injury" means that the costs attributable to the delay caused by contracting by sealed bids exceed the cost of materials, supplies, equipment, or work to be obtained. [1987 c 376 s 5.]

RCW 43.52.585 Procedures for implementing RCW 43.52.560 through 43.52.580. The executive board shall establish procedures for implementing RCW 43.52.560 through 43.52.580 by operating agency resolution after notice, public hearing, and opportunity for public comment. The procedures shall be established within six months after July 26, 1987. [1987 c 376 s 6.]

RCW 43.52.590 Construction of RCW 43.52.560 through 43.52.585. Nothing in RCW 43.52.560 through 43.52.585 requires reapplication by a joint operating agency in existence on July 26, 1987. [1987 c 376 s 7.]

RCW 43.52.595 Contracts for electric power and energy. A city or district may contract to purchase from an operating agency electric power and energy required for its present or future requirements. For projects the output of which is limited to qualified alternative energy resources as defined by RCW 19.29A.090(3), the contract may include the purchase of capability of the projects to produce electricity in addition to the actual output of the projects. The contract may provide that the city or district must make the payments required by the contract whether or not a project is completed, operable, or operating and notwithstanding the suspension, interruption, interference, reduction, or curtailment of the output of a project or the power and energy contracted for. The contract may also provide that payments under the contract are not subject to reduction, whether by offset or otherwise, and shall not be conditioned upon the performance or nonperformance of the operating agency or a city or district under the contract or other instrument. [2003 c 138 s 1.]

RCW 43.52.612 Contract bid form. A joint operating agency shall require that bids upon any construction or improvement of any nuclear generating project and associated facilities shall be made upon the contract bid form supplied by the operating agency, and in no other manner. The operating agency may, before furnishing any person, firm, or corporation desiring to bid upon any work with a contract bid form, require from the person, firm, or corporation, answers to questions contained in a standard form of questionnaire and financial statement, including a complete statement of the financial ability and experience of the person, firm, or corporation in performing work. The questionnaire shall be sworn to before a notary public or other person authorized to take acknowledgment of deeds and shall be submitted once a year or at such other times as the operating agency may require. Whenever the operating agency is not satisfied with the sufficiency of the answers contained in the questionnaire and financial statement or whenever the operating agency determines that the person, firm, or corporation does not meet all of the requirements set forth in this section, it may refuse to furnish the person, firm, or corporation with a contract bid form and any bid of the person, firm, or corporation must be disregarded. The operating agency shall require that a person, firm, or corporation have all of the following requirements in order to obtain a contract form:

(1) Adequate financial resources, the ability to secure these resources, or the capability to secure a one hundred percent payment and performance bond;

(2) The necessary experience, organization, and technical qualifications to perform the proposed contract;

(3) The ability to comply with the required performance schedule taking into consideration all of its existing business commitments;

(4) A satisfactory record of performance, integrity, judgment, and skills; and

(5) Be otherwise qualified and eligible to receive an award under applicable laws and regulations.

The refusal shall be conclusive unless appealed to the superior court of the county where the operating agency is situated or Thurston county within fifteen days, which appeal shall be heard summarily within ten days after the appeal is made and on five days' notice thereof to the operating agency.

The prevailing party in such litigation shall be awarded its attorney fees and costs.

The operating agency shall not be required to make available for public inspection or copying under chapter 42.56 RCW financial information provided under this section. [2005 c 274 s 300; 1982 1st ex.s. c 44 s 5.]

Severability—1982 1st ex.s. c 44: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1982 1st ex.s. c 44 s 10.]

RCW 43.52.910 Construction—1965 c 8. This chapter shall be liberally construed to effectuate its purposes. [1965 c 8 s 43.52.910. Prior: 1957 c 295 s 12.]
