The legislature also finds that it is in the best interest of the state and local communities to secure a stable and dedicated source of funds for the community economic revitalization board. It is the intent of the legislature to establish an ongoing funding source for the community economic revitalization board that will be used exclusively to advance economic development infrastructure. This act provides a partial funding solution by directing that beginning July 1, 2005, the interest earnings generated by the public works assistance account shall be used to fund the community economic revitalization board's financial assistance programs. Legislative finding—1999 c 94: "The legislature finds that a periodic review of the accounts and their uses is necessary. While creating new accounts may facilitate the implementation of legislative intent, the creation of too many accounts limits the effectiveness of performance-based budgeting. Too many accounts also limit the flexibility of the legislature to address emerging and changing issues in addition to creating administrative burdens for the responsible agencies. Accounts created for specific purposes may no longer be valid or needed. Accordingly, this act eliminates accounts that are not in use or are unneeded and consolidates accounts that are similar in nature." [1999 c 94 s 1.]

Findings—Intent—2003 c 150; 2002 c 242: "The legislature finds that the community economic revitalization board plays a valuable and unique role in stimulating and diversifying local economies, attracting private investment, creating new jobs, and generating additional state and local tax revenues by investing in public facilities projects that result in new or expanded economic development. The legislature also finds that it is in the best interest of the state and local communities to secure a stable and dedicated source of funds for the community economic revitalization board. It is the intent of the legislature to establish an ongoing funding source for the community economic revitalization board that will be used exclusively to advance economic development infrastructure. This act provides a partial funding solution by directing that beginning July 1, 2005, the interest earnings generated by the public works assistance account shall be used to fund the community economic revitalization board's financial assistance programs. These funds are not for use other than for the stated purpose and goals of the community economic revitalization board." [2003 c 150 s 1; 2002 c 242 s 1.]

Legislative finding—1999 c 94: "The legislature finds that a periodic review of the accounts and their uses is necessary. While creating new accounts may facilitate the implementation of legislative intent, the creation of too many accounts limits the effectiveness of performance-based budgeting. Too many accounts also limit the flexibility of the legislature to address emerging and changing issues in addition to creating administrative burdens for the responsible agencies. Accounts created for specific purposes may no longer be valid or needed. Accordingly, this act eliminates accounts that are not in use or are unneeded and consolidates accounts that are similar in nature." [1999 c 94 s 1.]

The legislature also finds that it is in the best interest of the state and local communities to secure a stable and dedicated source of funds for the community economic revitalization board. It is the intent of the legislature to establish an ongoing funding source for the community economic revitalization board that will be used exclusively to advance economic development infrastructure. This act provides a partial funding solution by directing that beginning July 1, 2005, the interest earnings generated by the public works assistance account shall be used to fund the community economic revitalization board's financial assistance programs. Legislative finding—1999 c 94: "The legislature finds that a periodic review of the accounts and their uses is necessary. While creating new accounts may facilitate the implementation of legislative intent, the creation of too many accounts limits the effectiveness of performance-based budgeting. Too many accounts also limit the flexibility of the legislature to address emerging and changing issues in addition to creating administrative burdens for the responsible agencies. Accounts created for specific purposes may no longer be valid or needed. Accordingly, this act eliminates accounts that are not in use or are unneeded and consolidates accounts that are similar in nature." [1999 c 94 s 1.]

Findings—Intent—2003 c 150; 2002 c 242: "The legislature finds that the community economic revitalization board plays a valuable and unique role in stimulating and diversifying local economies, attracting private investment, creating new jobs, and generating additional state and local tax revenues by investing in public facilities projects that result in new or expanded economic development. The legislature also finds that it is in the best interest of the state and local communities to secure a stable and dedicated source of funds for the community economic revitalization board. It is the intent of the legislature to establish an ongoing funding source for the community economic revitalization board that will be used exclusively to advance economic development infrastructure. This act provides a partial funding solution by directing that beginning July 1, 2005, the interest earnings generated by the public works assistance account shall be used to fund the community economic revitalization board's financial assistance programs. These funds are not for use other than for the stated purpose and goals of the community economic revitalization board." [2003 c 150 s 1; 2002 c 242 s 1.]

Legislative finding—1999 c 94: "The legislature finds that a periodic review of the accounts and their uses is necessary. While creating new accounts may facilitate the implementation of legislative intent, the creation of too many accounts limits the effectiveness of performance-based budgeting. Too many accounts also limit the flexibility of the legislature to address emerging and changing issues in addition to creating administrative burdens for the responsible agencies. Accounts created for specific purposes may no longer be valid or needed. Accordingly, this act eliminates accounts that are not in use or are unneeded and consolidates accounts that are similar in nature." [1999 c 94 s 1.]

The legislature also finds that it is in the best interest of the state and local communities to secure a stable and dedicated source of funds for the community economic revitalization board. It is the intent of the legislature to establish an ongoing funding source for the community economic revitalization board that will be used exclusively to advance economic development infrastructure. This act provides a partial funding solution by

directing that beginning July 1, 2005, the interest earnings generated by the public works assistance account shall be used to fund the community economic revitalization board's financial assistance programs. Legislative finding—1999 c 94: "The legislature finds that a periodic review of the accounts and their uses is necessary. While creating new accounts may facilitate the implementation of legislative intent, the creation of too many accounts limits the effectiveness of performance-based budgeting. Too many accounts also limit the flexibility of the legislature to address emerging and changing issues in addition to creating administrative burdens for the responsible agencies. Accounts created for specific purposes may no longer be valid or needed. Accordingly, this act eliminates accounts that are not in use or are unneeded and consolidates accounts that are similar in nature." [1999 c 94 s 1.]

Findings—Intent—2003 c 150; 2002 c 242: "The legislature finds that the community economic revitalization board plays a valuable and unique role in stimulating and diversifying local economies, attracting private investment, creating new jobs, and generating additional state and local tax revenues by investing in public facilities projects that result in new or expanded economic development. The legislature also finds that it is in the best interest of the state and local communities to secure a stable and dedicated source of funds for the community economic revitalization board. It is the intent of the legislature to establish an ongoing funding source for the community economic revitalization board that will be used exclusively to advance economic development infrastructure. This act provides a partial funding solution by directing that beginning July 1, 2005, the interest earnings generated by the public works assistance account shall be used to fund the community economic revitalization board's financial assistance programs. These funds are not for use other than for the stated purpose and goals of the community economic revitalization board." [2003 c 150 s 1; 2002 c 242 s 1.]

Legislative finding—1999 c 94: "The legislature finds that a periodic review of the accounts and their uses is necessary. While creating new accounts may facilitate the implementation of legislative intent, the creation of too many accounts limits the effectiveness of performance-based budgeting. Too many accounts also limit the flexibility of the legislature to address emerging and changing issues in addition to creating administrative burdens for the responsible agencies. Accounts created for specific purposes may no longer be valid or needed. Accordingly, this act eliminates accounts that are not in use or are unneeded and consolidates accounts that are similar in nature." [1999 c 94 s 1.]
