

**Chapter 70A.420 RCW**  
**LEAD-BASED PAINT**

**Sections**

70A.420.010	Finding.
70A.420.020	Definitions.
70A.420.040	Certification and accreditation—Rules.
70A.420.050	Rules—Report.
70A.420.060	Lead paint account.
70A.420.070	Inspections.
70A.420.080	Certification required to perform lead-based paint activities—Renovation activities—Certificate revocation—Penalties.
70A.420.090	Chapter contingent on federal action.
70A.420.100	State renovation, repair, and painting program.

**RCW 70A.420.010 Finding.** (1) The legislature finds that lead hazards associated with lead-based paint represent a significant and preventable environmental health problem. Lead-based paint is the most widespread of the various sources of lead exposure to the public. Census data show that 1,560,000 homes in Washington state were built prior to 1978 when the sale of residential lead-based paint was banned. These are homes that are believed to contain some lead-based paint.

Lead negatively affects every system of the body. It is harmful to individuals of all ages and is especially harmful to children, fetuses, and adults of childbearing age. The effects of lead on a child's cognitive, behavioral, and developmental abilities may necessitate large expenditures of public funds for health care and special education. The irreversible damage to children and subsequent expenditures could be avoided if exposure to lead is reduced.

(2) The federal government regulates lead poisoning and lead hazard reduction through:

- (a)(i) The lead-based paint poisoning prevention act;
- (ii) The lead contamination control act;
- (iii) The safe drinking water act;
- (iv) The resource conservation and recovery act of 1976; and
- (v) The residential lead-based paint hazard reduction act of 1992; and

(b) Implementing regulations of:

- (i) The environmental protection agency;
- (ii) The department of housing and urban development;
- (iii) The occupational safety and health administration; and
- (iv) The centers for disease control and prevention.

(3) In 1992, congress passed the federal residential lead-based paint hazard reduction act, which allows states to provide for the accreditation of lead-based paint activities programs, the certification of persons completing such training programs, and the licensing of lead-based paint activities contractors under standards developed by the United States environmental protection agency.

(4) The legislature recognizes the state's need to protect the public from exposure to lead hazards. A qualified and properly trained workforce is needed to assist in the prevention, detection, reduction, and elimination of hazards associated with lead-based paint. The purpose of training workers, supervisors, inspectors, risk assessors,

project designers, renovators, and dust sampling technicians engaged in lead-based paint activities is to protect building occupants, particularly children under the age of six years from potential lead-based paint hazards and exposures both during and after lead-based paint activities. Qualified and properly trained individuals and firms will help to ensure lead-based paint activities are conducted in a way that protects the health of the citizens of Washington state and safeguards the environment.

(5) The state lead-based paint activities program requires that all lead-based paint activities be performed by certified personnel trained by an accredited program, and that all lead-based paint activities meet minimum work practice standards established by the department of commerce. Therefore, the lead-based paint activities accreditation, training, and certification program shall be established in accordance with this chapter. The lead-based paint activities accreditation, training, and certification program shall be administered by the department of commerce and shall be used as a means to assure the protection of the general public from exposure to lead hazards.

(6) For the welfare of the people of the state of Washington, this chapter establishes a lead-based paint activities program within the department of commerce to protect the general public from exposure to lead hazards and to ensure the availability of a trained and qualified workforce to identify and address lead-based paint hazards. [2025 c 180 s 1; 2010 c 158 s 1; 2003 c 322 s 1. Formerly RCW 70.103.010.]

**RCW 70A.420.020 Definitions.** The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Abatement" means any measure or set of measures designed to permanently eliminate lead-based paint hazards.

(a) Abatement includes, but is not limited to:

(i) The removal of paint and dust, the permanent enclosure or encapsulation of lead-based paint, the replacement of painted surfaces or fixtures, or the removal or permanent covering of soil, when lead-based paint hazards are present in such paint, dust, or soil; and

(ii) All preparation, cleanup, disposal, and postabatement clearance testing activities associated with such measures.

(b) Specifically, abatement includes, but is not limited to:

(i) Projects for which there is a written contract or other documentation, which provides that an individual or firm will be conducting activities in or to a residential dwelling or child-occupied facility that:

(A) Shall result in the permanent elimination of lead-based paint hazards; or

(B) Are designed to permanently eliminate lead-based paint hazards and are described in (a)(i) and (ii) of this subsection;

(ii) Projects resulting in the permanent elimination of lead-based paint hazards, conducted by certified firms or individuals, unless such projects are covered by (c) of this subsection;

(iii) Projects resulting in the permanent elimination of lead-based paint hazards, conducted by firms or individuals who, through their company name or promotional literature, represent, advertise, or hold themselves out to be in the business of performing lead-based

paint activities as identified and defined by this section, unless such projects are covered by (c) of this subsection; or

(iv) Projects resulting in the permanent elimination of lead-based paint hazards, that are conducted in response to state or local abatement orders.

(c) Abatement does not include renovation, remodeling, landscaping, or other activities, when such activities are not designed to permanently eliminate lead-based paint hazards, but, instead, are designed to repair, restore, or remodel a given structure or dwelling, even though these activities may incidentally result in a reduction or elimination of lead-based paint hazards. Furthermore, abatement does not include interim controls, operations and maintenance activities, or other measures and activities designed to temporarily, but not permanently, reduce lead-based paint hazards.

(2) "Accredited training program" means a training program that has been accredited by the department to provide training for individuals engaged in either lead-based paint activities or renovation activities, or both.

(3) "Certified abatement supervisor" means an individual who has been trained by an accredited training program for abatement supervisors, meets all the qualifications established by the department, and is certified by the department to supervise and conduct abatements, and to prepare occupant protection plans and abatement reports.

(4) "Certified abatement worker" means an individual who has been trained by an accredited training program, meets all the qualifications established by the department, and is certified by the department to perform abatements.

(5) "Certified dust sampling technician" means an individual who has been trained by an accredited training program for dust sampling technicians, meets all the qualifications established by the department, and is certified by the department to conduct dust sampling for renovation projects.

(6) "Certified firm" includes a company, partnership, corporation, sole proprietorship, association, agency, or other business entity that meets all the qualifications established by the department and performs lead-based paint activities or renovation activities to which the department has issued a certificate.

(7) "Certified inspector" means an individual who has been trained by an accredited training program for lead-based paint inspectors, meets all the qualifications established by the department, and is certified by the department to conduct inspections.

(8) "Certified project designer" means an individual who has been trained by an accredited training program, meets all the qualifications established by the department, and is certified by the department to prepare abatement project designs, occupant protection plans, and abatement reports.

(9) "Certified renovator" means an individual who has been trained by an accredited training program for renovators, meets all the qualifications established by the department, and is certified by the department to perform renovations or direct workers in the performance of renovation work.

(10) "Certified risk assessor" means an individual who has been trained by an accredited training program for lead-based paint risk assessors, meets all the qualifications established by the department, and is certified by the department to conduct risk assessments and

sample for the presence of lead in dust and soil for the purposes of abatement clearance testing.

(11) "Department" means the Washington state department of commerce.

(12) "Director" means the director of the Washington state department of commerce.

(13) "Federal laws and rules" means:

(a) Title IV, toxic substances control act (15 U.S.C. Sec. 2681 et seq.) and the rules adopted by the United States environmental protection agency under that law for authorization of state programs;

(b) Any regulations or requirements adopted by the United States department of housing and urban development regarding eligibility for grants to states and local governments; and

(c) Any other requirements adopted by a federal agency with jurisdiction over lead-based paint hazards.

(14) "Lead-based paint" means paint or other surface coatings that contain lead equal to or in excess of 1.0 milligrams per square centimeter, 0.5 percent by weight, or 5,000 parts per million.

(15) "Lead-based paint activity" includes inspection, testing, risk assessment, lead-based paint hazard reduction project design or planning, abatement, or clearance of lead-based paint hazards.

(16) "Lead-based paint hazard" means any condition that causes exposure to lead from lead-contaminated dust, lead-contaminated soil, or lead-contaminated paint that is deteriorated or present in accessible surfaces, friction surfaces, or impact surfaces that would result in adverse human health effects as identified by the administrator of the United States environmental protection agency under the toxic substances control act, section 403.

(17) "Person" includes an individual, corporation, firm, partnership, or association, an Indian tribe, state, or political subdivision of a state, and a state department or agency.

(18)(a) "Renovation" means the modification of any existing structure, or portion thereof, that results in the disturbance of painted surfaces, unless that activity is performed as part of an abatement as defined in this section. The term includes but is not limited to:

(i) The removal, modification, or repair of painted surfaces or painted components;

(ii) Modification of painted doors;

(iii) Surface restoration;

(iv) Window repair including, but not limited to, glazing;

(v) Surface preparation, such as sanding, scraping, pressure washing, or activities that generates paint chips or dust;

(vi) Removal of building components, such as walls, windows, or other like structures;

(vii) Weatherization projects, such as cutting holes in painted surfaces to install blown-in insulation;

(viii) Interim controls that disturb painted surfaces; or

(ix) A renovation performed for the purposes of converting a building or part of a building in target housing or a child-occupied facility.

(b) The term "renovation" as defined in this subsection does not include minor repair and maintenance activities.

(19) "Risk assessment" means:

(a) An on-site investigation to determine the existence, nature, severity, and location of lead-based paint hazards; and

(b) The provision of a report by the individual or the firm conducting the risk assessment, explaining the results of the investigation and options for reducing lead-based paint hazards.

(20) "State program" means a state administered lead-based paint activities or renovation activities certification and training program that meets the federal environmental protection agency requirements. [2025 c 180 s 3; 2010 c 158 s 2; 2009 c 565 s 49; 2003 c 322 s 2. Formerly RCW 70.103.020.]

**Reviser's note:** The definitions in this section have been alphabetized pursuant to RCW 1.08.015(2).

**RCW 70A.420.040 Certification and accreditation—Rules.** (1) The department shall administer and enforce a state program for training and certification, and training program accreditation, which must include those program elements necessary to assume responsibility for federal requirements for a program as set forth in Title IV of the toxic substances control act (15 U.S.C. Sec. 2601 et seq.), the residential lead-based paint hazard reduction act of 1992 (42 U.S.C. Sec. 4851 et seq.), 40 C.F.R. Part 745, Subparts D (2001), E (1998), L and Q (1996), and Title X of the housing and community development act of 1992 (P.L. 102-550). The department may delegate or enter into an agreement with other state agencies, local governments, or private entities for implementation of components of the state program.

(2) The department shall establish a program for certification of persons involved in lead-based paint activities and renovation activities.

(3) The department shall establish a program for accreditation of training providers in compliance with federal and state laws and rules.

(4) Rules adopted under this section shall:

(a) Establish minimum accreditation requirements for lead-based paint activities and renovator activities for training providers;

(b) Establish work practice standards for conduct of lead-based paint activities and renovator activities;

(c) Establish certification requirements for individuals and firms engaged in lead-based paint activities and renovator activities including provisions for recognizing certifications accomplished under existing certification programs;

(d) Require the use of certified personnel in any lead-based paint hazard reduction activity or renovation activity;

(e) Be revised as necessary to comply with federal law and rules and to maintain eligibility for federal funding;

(f) Be revised as necessary to comply with state law and rules;

(g) Facilitate reciprocity and communication with other states having a lead-based paint certification program;

(h) Provide for decertification, deaccreditation, and financial assurance for a person certified or accredited by the department; and

(i) Be issued in accordance with the administrative procedure act, chapter 34.05 RCW.

(5) This program must be at least as protective as federal requirements as set forth in Title IV of the toxic substances control act (15 U.S.C. Sec. 2601 et seq.), the residential lead-based paint hazard reduction act of 1992 (42 U.S.C. Sec. 4851 et seq.), 40 C.F.R. Part 745 (1996), Subparts L and Q, and Title X of the housing and community development act of 1992 (P.L. 102-550).

(6) Any rules adopted by the department shall be consistent with, or be more protective than, federal laws, regulations, and requirements relating to lead-based paint activities and renovation activities specified by the residential lead-based paint hazard reduction act of 1992 (42 U.S.C. Sec. 4851 et seq.) and Title X of the housing and community development act of 1992 (P.L. 102-550), and rules adopted pursuant to chapter 70A.305 RCW, to ensure consistency in regulatory action. The rules must be at least as protective as federal and state regulations.

(7) The department may accept federal funds for the administration of the program.

(8) For the purposes of certification under the federal requirements as set forth in section 2682 of the toxic substances control act (15 U.S.C. Sec. 2682), the department may require renovators and dust sampling technicians to apply for a certification badge issued by the department. The department may impose a fee on the applicant for processing the application. The application shall include a photograph of the applicant and a fee in the amount imposed by the department.

(9) The department shall prescribe and adopt by rule fees sufficient to cover the implementation of this chapter. [2025 c 180 s 4; 2020 c 20 s 1273; 2010 c 158 s 4; 2003 c 322 s 4. Formerly RCW 70.103.040.]

**RCW 70A.420.050 Rules—Report.** The department shall adopt rules to:

(1) Establish procedures and requirements for the accreditation of lead-based paint activities and renovation activities training programs including, but not limited to, the following:

- (a) Training curriculum;
- (b) Training hours;
- (c) Hands-on training;
- (d) Trainee competency and proficiency;
- (e) Training program quality control;
- (f) Procedures for the reaccreditation of training programs;
- (g) Procedures for the oversight of training programs; and
- (h) Procedures for the suspension, revocation, or modification of training program accreditations, or acceptance of training offered by an accredited training provider in another state or Indian tribe authorized by the environmental protection agency;

(2) Establish procedures for the purposes of certification, for the acceptance of training offered by an accredited training provider in a state or Indian tribe authorized by the environmental protection agency;

(3) Certify individuals and firms involved in lead-based paint activities and renovation activities to ensure that certified:

(a) Individuals are trained by an accredited training program and possess appropriate educational or experience qualifications for certification; and

(b) Firms meet the qualification requirements to offer work in the state and have at least one certified individual employed with the firm;

(4) Establish requirements for the administration of third-party certification exams for lead-based paint activities;

(5) Establish procedures for recertification;

- (6) Establish work practices required for lead-based paint activities and renovation activities;
- (7) Use laboratories accredited under the environmental protection agency's national lead laboratory accreditation program;
- (8) Establish procedures for the suspension, revocation, or modification of certifications and accreditations;
- (9) Establish an enforcement response policy that shall include:
  - (a) Warning letters, notices of noncompliance, notices of violation, or the equivalent;
  - (b) Administrative or civil actions, including penalty authority, including accreditation or certification suspension, revocation, or modification; and
  - (c) Authority to refer for possible imposition of criminal sanctions or exercise of other criminal or civil authority using existing state laws as applicable;
- (10) Prepare and submit a biennial report to the legislature regarding the program's status, its costs, and the number of persons certified by the program;
- (11) In accordance with chapter 34.05 RCW, carry out the provisions of this chapter and establish an appeals process for violations of this chapter. [2025 c 180 s 5; 2020 c 20 s 1274; 2010 c 158 s 5; 2003 c 322 s 5. Formerly RCW 70.103.050.]

**RCW 70A.420.060 Lead paint account.** The lead paint account is created in the state treasury. All receipts from fees collected under this chapter must be deposited into the account. All receipts from penalties and fines collected pursuant to enforcement actions or settlements under this chapter, including any fees or costs, must be deposited into the account. Moneys in the account may be spent only after appropriation. Expenditures from the account may be used only for the purposes of this chapter. [2025 c 180 s 8; 2020 c 20 s 1275; 2003 c 322 s 6. Formerly RCW 70.103.060.]

**RCW 70A.420.070 Inspections.** (1)(a) The director or the director's designee is authorized to inspect at reasonable times:

- (i) Premises or facilities where those engaged in training for lead-based paint activities and renovation activities conduct business; and
- (ii) The business records of, and take samples at, the businesses accredited, certified, or subject to regulation under this chapter to conduct lead-based paint training, lead-based paint activities, or renovation activities.

(b) Any accredited training program or any firm or individual certified under this chapter that denies access to the department for the purposes of (a) of this subsection is subject to deaccreditation or decertification under RCW 70A.420.040 and other enforcement actions.

(2) The director or the director's designee is authorized to inspect premises or facilities, with the consent of the owner or owner's agent, where violations may occur concerning lead-based paint activities or renovation activities, as defined under RCW 70A.420.020, at reasonable times, when feasible. [2025 c 180 s 6; 2020 c 20 s 1276; 2003 c 322 s 7. Formerly RCW 70.103.070.]

**RCW 70A.420.080 Certification required to perform lead-based paint activities—Renovation activities—Certificate revocation—Penalties.** (1) The department is designated as the official agency of this state for purposes of cooperating with, and implementing the state lead-based paint activities program and renovation, repair, and painting program under the jurisdiction of the United States environmental protection agency.

(2) No individual or firm can perform, offer, or claim to perform lead-based paint activities or renovation activities without certification from the department to conduct these activities.

(3) The department may deny, suspend, or revoke a certificate for failure to comply with the requirements of this chapter or any rule adopted under this chapter. No person whose certificate is revoked under this chapter shall be eligible to apply for a certificate for one year from the effective date of the final order of revocation. A certificate may be denied, suspended, or revoked on any of the following grounds:

(a) A risk assessor, inspector, contractor, project designer, worker, dust sampling technician, or renovator violates work practice standards established by the United States environmental protection agency or the United States department of housing and urban development governing work practices and procedures;

(b) The certificate was obtained by error, misrepresentation, or fraud; or

(c) Failure to maintain the required qualifications of the certificate for the duration of the certification.

(4) Any person found to commit fraud, such as falsifying documents, or intentionally violating any of the provisions of this chapter, may be convicted of a misdemeanor. A conviction is an unvacated forfeiture of bail or collateral deposited to secure the defendant's appearance in court, the payment of a fine, a plea of guilty, or a finding of guilt on a violation of this chapter, regardless of whether imposition of sentence is deferred or the penalty is suspended, and shall be treated as a violation conviction for purposes of certification forfeiture under this chapter.

Violations of this chapter include:

(a) Failure to comply with any requirement of this chapter;

(b) Failure or refusal to establish, maintain, provide, copy, or permit access to records or reports as required;

(c) Obtaining certification through fraud or misrepresentation;

(d) Failure to obtain certification from the department and performing work requiring certification at a jobsite; or

(e) Fraudulently obtaining certification and engaging in any lead-based paint activities or renovation activities requiring certification.

(5) The department may not issue a penalty if the environmental protection agency has already taken enforcement action for the same violation. [2025 c 180 s 7; 2010 c 158 s 6; 2003 c 322 s 8. Formerly RCW 70.103.080.]

**RCW 70A.420.090 Chapter contingent on federal action.** (1) The United States environmental protection agency authorized the department of commerce to administer programs under 40 C.F.R. 745, subpart Q as codified under chapter 322, Laws of 2003 (lead-based

paint) and chapter 158, Laws of 2010 (state lead-based paint program - renovation activities).

(2) The department's duties under chapter 322, Laws of 2003, and chapter 158, Laws of 2010, as amended, are subject to the availability of sufficient funding for this purpose. The director or his or her designee shall seek funding of the department's efforts under this chapter from the federal government. By October 15th of each year, the director shall determine if sufficient funding has been provided. If the director determines sufficient funding has not been provided and the department cannot sustain the program with program funds, the department may:

(a) Cease efforts under this chapter due to insufficient funds; and

(b) Inform the code reviser that it has ceased its efforts due to insufficient funds. [2025 c 180 s 9; 2010 c 158 s 7; 2003 c 322 s 9. Formerly RCW 70.103.090.]

**RCW 70A.420.100 State renovation, repair, and painting program.**

The department shall administer and enforce a state program for training and certification, and accreditation as set forth in Title IV of the toxic substances control act (15 U.S.C. Sec. 2601 et seq.), the residential lead-based paint hazard reduction act of 1992 (42 U.S.C. Sec. 4851 et seq.), 40 C.F.R. Part 745, Subparts D (2001), E (1998), L and Q (1996), and Title X of the housing and community development act of 1992 (P.L. 102-550). This program, as established in chapter 158, Laws of 2010 (state lead-based paint program—renovation activities) shall be known as the state renovation, repair, and painting program. The state renovation, repair, and painting program requires that all renovation activities on pre-1978 residential or child-occupied facilities must be performed by certified renovation firms utilizing certified renovators or individuals trained by certified renovators and that renovation activities are directed by certified renovators. All renovation activities must meet minimum work practice standards established by the department. The department shall establish rules under this program as described in RCW 70A.420.040. [2025 c 180 s 2.]
